INSTALLATION OF JUAREZ AS PRESIDENT.

CITY OF MEXICO, September 12, *via* MATAMORAS, October 2.—Juarez was installed as President last night amid great excitement. There are rumors of a change in the Cabinet. All is quiet here. The President's message is conciliatory, but firm. It recommends material improvements, the building of railroads and protection of the coast, and sanctions the making of treaties with foreign nations. The President has a majority in Congress.

ANOTHER REVOLUTION.

Another revolution has begun in the State of Neuva Leon. General Pedro Martinez has pronounced against the Juarez Government and State authorities. Gaolena and several other chieftains have joined the movement, and their combined forces are said to be marching on Camargo and Matamoras, with a view to occupying the Custom House on the frontier. The first step taken by the authorities of Neuva Leon was to throw into prison all the employes of the Federal Government. It is expected that the revolution will become general.

FRONTIER QUIET.

The Matamoras frontier is as yet quiet. Gen. Palaire Cortinas has issued a proclamation, urging the people to fight for Juarez. Great preparations are making at Matamoras for defence. All the cavalry have left for the front, and there is great excitement reported from all parts of Mexico.

THE RECENT TROUBLE.

In the quarrel between the Captain of the vessel "Brothers" and the Mexican authorities the Captain and crew of the "Harvest Home" came to the aid of the "Brothers," and several Mexicans were killed. The Captain and crew of both vessels left in the "Harvest Home," abandoning the "Brothers," which was taken possession of by the American Consul.

THE PRESIDENCY.

MATAMORAS, MEXICO, September 24.—Juarez will be elected by Congress.

QUARANTINE.

The government has quarantined the port of San Juan Dautista to the Tabasco frontier; also Colima to Manzanillo. The port of Magdelana has been closed.

SALT LAKES.

Romero proposes to rent the Lower California salt lakes to a Mexican company.

ARRESTED.

Caneda, who pronounced in Sinaloa, has been arrested.

JAPAN.

CONSOLIDATION.

YOKAHAMA, September 13.—The Japanese government has issued a decree wiping out the position of Hans or Daiomiaote. This reduces a ruler for over three hundred years to the position of the common people, and immediately annexes their territories to the government. There is no longer a restoratory or religion, except through the Mikado.

EXCHANGE CLOSED.

The decision of the acting Secretary of State, upholding the Japanese Government in closing Von Reed's Stock Exchange at Yeddo, asserting that although lawful in America, yet every nation is a judge of what laws are required to preserve the morals of its people, has created much comment amongst all classes of foreigners, as effecting their treaty rights with this Government. Other nationalities and twenty native establishments are in operation with the sanction of the Government, therefore an appeal will be made to Washington to uphold the treaty rights granting the same facilities to trade as are accorded other nationalities.

THE EMBASSY.

The Japanese man-of-war Netsin went to Hakadade, where the Russian vessels were to have met the embassy for St. Petersburg, but, after waiting a month, returned to Yeddo.

RAILWAYS.

Coolies are constantly employed on the railroad at Bowen, Yokahoma and Yeddo. The first locomotive to Kanogawa, three miles, attracted great attention.

ANNEXATION.

The Russians have annexed the entire Sagalier island, and the embassies cannot alter it.

FRANCE.

BONAPARTIST CONSPIRACIES.

PARIS, October 7.—The Republican journals of this city demand of Thiers that he take prompt and vigorous action for the suppression of Bonapartist conspiracies.

THE ALGERIAN INSURRECTION.

The continued agitation in the Algerian possessions of France causes a feeling of uneasiness lest the Government may not be exercising the necessary vigilance and energy in suppressing the troubles, which, it is feared, may grow to such proportions as to cause serious embarrassment and expense, or even to necessitate the abandonment of that colony.

SENTENCED.

PARIS, October 8.—M. Dombrowski, who was the leader of the mob in the attacks on German residents of Lyons, has been arrested, tried and sentenced to two months' imprisonment.

DIED.

M. Lambrecht, Minister of the Interior, died suddenly this morning at his residence while dressing.

SPAIN.

GOVERNMENT APPOINTMENTS.

MADRID, October 7.—Sagosta favors the radical policy by the new Government. Piellal has been appointed Captain General of Madrid; Senor Merelo, Governor of the City; Senor Balagaro, Administrator of the Department of State, *ad interim*.

THE KABYL REVOLT.

Advices received from Melilla state that the revolt at Kabyl menaces only the Dominions of Turkey, which sent troops to restore order. The Spanish garrison will not act unless insult is offered. The cause of the outbreak was the establishment of a Moorish Custom House on the coast.

REINFORCEMENTS FOR CUBA.

MADRID, October 7.—Senor Belaguer, the acting Minister of State, has telegraphed to General Valmaseda at Cuba, that necessary reinforcements will be promptly dispatched to uphold the national authority and preserve the integrity of the Spanish dominions.

WEST INDIES.

San Domingo Annexation.

PORT AU PRINCE, September 23, *via* Havana, October 7.—It is reported that the recent visit of the British Charge D'Affairs to the capital of San Domingo was for the purpose of looking into the scheme for the annexation of that republic to the United States.

THE REVOLUTIONISTS.

SAN DOMINGO, September 23.—The latest advices from the frontier state that the San Domingo revolutionists under Cabral were surprised by the forces of Baez, at the village of San Juan and driven to the Haytien frontier. Cabral and staff narrowly escaped capture. Cabral reorganized his forces and made an attack upon the army of Baez, recapturing the village and driving the President and his troops into Azua. Baez's men burned several houses in San Juan and shot the only prisoner taken by them.

CANADA.

THE NORTHERN COLONIZATION RAILWAY.

MONTREAL, October 7.—Sir Hugh Allan, President of the Northern Colonization Railway, submitted a statement to the City Council to-day in relation to the prospects of the line, making special reference to its importance in connection with the Canada Pacific Railway. He is said to have stated that he had an offer from an eminent English firm to build the road on the basis af a city grant of $1,000,000, $1,500,000 from intervening municipalities, and land grants from the Quebec Government.

LONDON, October 7.—Contracts have been entered into for the contsruction of steamers for a forthightly line between Antwerp and New York *via* Dover.

MARINE NEWS.

The steamship China touched at Queenstown.

SOUTH AMERICA.

VENEZUELAN REVOLUTION.

KINGSTON, Jam., October 7.—Advices from Venezuela state several encounters had taken place between the government forces and the revolutionists. A band of the latter, one hundred and thirty strong, advanced as far as Rio Chico, where they were surprised by the government forces and slaughtered without mercy, not a man escaping. The revolutionists still hold Port Lindad, in Bolivar. They have released the American merchant steamer Hero.

SWEDEN.

RIGSDAG CLOSED.

STOCKHOLM, October 7.—The King closed the session of the Rigsdag in person to-day, and addressed that body concerning the state of the kingdom. He expressed regret at the failure of the Lower Chamber to act on the army reorganization bill, thereby compelling the postponement of the action authorized by this important measure.

BERLIN is said to be just now crowded with teachers of French, the whole number being estimated at nearly 1,500; while in Paris a great many people have learned, much against their will, to understand German.

GARIBALDI some time ago invested what little money he possessed in Italian bonds, and they have declined so much that he cannot pay a mortgage on his humble homestead at Caprera, and his creditors threaten to sell his home at auction.

IT is estimated that during the last five centuries, more than £50,000,000 worth of real estate have been washed away from the coast of England by the encroachments of the sea. A number of villages and towns which used to be set down on the old maps have now entirely disappeared.

JOSEPH GUNGL, the renowned composer, is said by a Munich journal, to have lost some 200,000 florins, his savings for several years, by an unfortunate speculation in Austrian railway shares. He is so distressed by his misfortune that he is declared to be almost incapable of work. Even his own music cannot console him.

THERE would seem to be some doubt about the asserted willingness of Germans to admit females into collegiate institutions. The Koenigsberg academical authorities having put the question to the Prussian Minister of Education, the latter replied that the statutes of the university contain no provision for the case of female students.

ALLUDING to the United States loan, one of the English papers says: "A government which has within five years redeemed nearly five hundred millions of the obligations created in the conduct of a great war, and which has at the same time largely cut down the fiscal burdens of the people, stands in a position which investors know how to appreciate."

THE wife of one Giovanni Marcelli, an Italian resident of Cairo, in Egypt, lost her sight after careful treatment for opthalmia by a prominent oculist Dr. Altier Garrulier The husband, from a feeling of senseless revenge, waylaid the Doctor and his secretary as they were returning home one night, and threw nitric acid into their eyes, entirely destroying their sight.

THE assembly of railway directors sitting at Berlin has passed a resolution to allow free passage on all public and private lines in Germany to Prince Bismarck and his family. The railway carriage about to be presented to the Chancellor by the German railway companies is nearly finished, and will be fitted up with all comforts. It is likewise to be forwarded free of charge on all lines.

M. SCHNEIDER, Minister of Justice at Dresden, recently died of apoplexy while making the ascent of the Piz Langaurt in Switzerland. The deceased gentleman, accompanied by his daughter and a guide, had performed about two-thirds of the somewhat steep and rugged path, and had commenced on foot the latter part of the ascent, which is very fatiguing, when he suddenly staggered and fell, and every effort to restore him to consciousness proved unavailing.

M. THIERS is peculiar for a restless inclination to do everything himself, to control everybody, and to have his own way in all things. A comical story, showing this disposition of his, and of which Louis Phillippe was the author, is revived in Paris. "I can do nothing," said the King, "for he always finds some way of thrusting himself into my place. I say to him: M. Thiers, I wish a separate bed; here are two, make a choice; I will take the other, and let it be understood. The affair is arranged on this basis. I flatter myself that I am to rest easy at last. I undress —and *voila* Here is this little devil, with his head on his pillow, and his feet on that of the bed that he has selected for me. What would you!"

A SINGULAR story is related of Madame de Lavalette, daughter of M. Rouher. This lady was, a few days ago, at Royan, where she bought a photograph of M. Thiers, declaring she would gnaw him to pieces as a dog would a bone. She changed her mind, however, and, going to shooting range, placed the photograph on the target, and fired twelve shots at it, hitting it three times. She then held it up to the crowd assembled, and exclaimed: "Now I am satisfied; I have finished my work of destruction." The crowd were indignant, and some cried out, "It is M. Rouher who ought to be served like that." Madame de Lavalette had to make her escape to her hotel, followed by the jeers and uncomplimentary remarks of a number of the spectators of her singular conduct.

TAMMANY AFFAIRS.

The confession and restitution made last night by Keyser is deemed of the utmost importance. This step was wholly unexpected, and as a means of enabling the Committee of Seventy to obtain other proof, is regarded as the most promising occurrence that has, as yet, transpired. His admission is that in seven years' employment by the city he has received three-quarters of a million dollars, for which he has done little work, but declared that his signature to many of the vouchers for exorbitant sums has been forged. In many instances he had been compelled to assign his claims before he could receive payment. This confession will probably secure him immunity from punishment. Other implicated tradesmen are expected to take a like course. The Committee of Seventy are following out their determination for the prosecution of the ring thieves, and will demand of the Governor to forthwith order the Attorney General to commence the required legal proceedings. They will employ counsel and assist in this work The late County Auditor, Watson, is supposed to be the person who altered Keyser's vouchers. The bills of Davidson & Co. were also altered. The firm are said to have received but a small proportion of the amount charged to them.

The opinion is gaining ground that Judge Barnard will dismiss the present Grand Jury. Unless this is done, the proceedings against the perpetrators of these frauds will result in nothing. Besides the fact that the Grand Jury is packed, one of the officials upon whom devolves the prosecution of the suits is under Tammany influence. Evidence of the most starling character is accumulating, but the Committee of Seventy find difficulties in their way. Parties giving evidence expect it will cost them their salaries, and desire to be provided with other situations. This the committee hesitate to do.

The *Herald* says it will advance the city government one hundred thousand dollars towards carrying on the government until the taxes come in.

Mr. Tweed says there is a discrepancy between the statement of Controller Green as to the financial condition of the Department of Public Works and his own, and that there shall be no stoppage of the works of the department, and will individually pay his men rather than see them suffer. He does not regard the Rochester Convention as either a triumph or defeat for Tammany. He supports the ticket and thinks the city trouble an issue in itself.

The counsel for Ingersoll, who was to be examined to-day concerning his claim against the city, desired a delay on account of the absence of his associate counsel, which was granted. The opposing counsel wanted to proceed.

THE DEMOCRATIC REFORMERS.

The reform delegates to the Democratic State Convention have issued an address to the Democratic voters of the city. They rehearse the proceedings at the late Convention at Rochester, claiming that they obtained a success over Tammany thereby; the adoption of a resolution by which the prestige of the regularity of Tammany Hall is destroyed, and an independent assembly district takes its place, and urge all honest Democrats to nominate men of the highest character for intelligence and integrity to the Legislature, having no doubts of their ability to elect them by overwhelming majorities, thus assuming the utter and speedy downfall of the Tammany ring, and that then some portions of the stolen millions may be recovered. They closed by saying, "Let us pledge ourselves to vindicate and redeem the honor of the Democratic party and use every means through the ballot box and courts to bring the criminals who disgrace our party to condign punishment." The address is signed by the whole reform delegation.

GREELEY ON OAKEY HALL.

Horace Greeley, in review of the situation, states that Oakey Hall has embezzled the public money and converted it to his own use, which are not yet proved. Still, for signing bills that were fraudulent and false, he thinks he ought to resign. "I have seen no evidence that Peter B. Sweeny is a public plunderer; ditto, or rather more so, as to John G. Hilton. My judgment as to Tweed is very different I cannot but believe that a good share of the millions paid out of the treasury on his order on immensely exaggerated or utterly fraudulent bills of Ingersoll, Garvey, Keyser, Schuyler, Smith, &c., &c., have wound their devious way into his pocket, and have been employed to defray his enormous expenditures at Albany, in this city, and elsewhere, and add block after block to his ever growing landed possessions."

INDIAN FRAUD.

A correspondent of the *Times*, writing from Washington, says that a gigantic Indian fraud has just been unearthed by Secretary Delano. Several well-known Indian officials of the last administration, among whom is one Ex-Commissioner of Indian Affairs, are implicated. The scheme involves over 60,000 acres of land, valued at upwards of $180,000. The Secretary has had a special commission of the Interior Department probing the matter. Most startling developments are anticipated.

TAMMANY TO BE ABOLISHED.

The *World* says, in regard to the representation from New York to the Democratic Convention, that hereafter the convention will know nothing of Tammany or anti-Tammany, and deal only with separate Assembly Districts. Not only Tammany, but all successors to Tammany, and all similar obigarchical organizations are thus to be abolished.

CITY CONTRACTORS.

The *Times* says that Masterton, the contractor, who built Tammany Hall, swears that he would be willing to do the work performed by Garvey for $50,000, and that the repairs could not have possibly amounted to the original cost.

NEW YORK, October 8, 1871.

KEYSER EXPLAINS.

A statement has been published that John H. Keyser, of the firm of J. H. Keyser & Co., plumbers, gas fitters and iron and brass founders, had, by deed, conveyed to Jackson S. Schultz, in trust for the city and county of New York, property to the value of $650,000 to reimburse the public treasury for any moneys improperly received by his firm for work done by order of the late Board of Supervisors. To-day Keyser published a card, in which he states, on behalf of his firm, that his communications to the committee have been misconstrued, and that the moneys he received in 1869 and 1870 covered work done since 1864 on all the city and county buildings, including plumbing, gas work, iron railing, repairs to city parks, casting for Croton Water and Sewer Departments and the Bureau of Lamps and Gas, repairs on streets connected with sewers and culverts, and with new sewers and alterations, and that on some of these he is still at work, completing them. He was put to heavy expense for new buildings, machinery, and experiments, and charged but a fair price to cover all, having been often obliged to sell his claims to raise money to carry on his operations. He further says he never received a cent of the sums of $800,000, but that the vouchers and his endorsement thereon are forgeries. In answer to other newspaper charges, he also says that Tweed had never any interest in his firm, but that the company are his employes, among whom last year he distributed $35,000 as their percentage of profit. He feels indignant at the insinuation that he lived luxuriously, and gives the following details: His town house cost him $12,000, the island near South Norwalk but $1,500; the house on it $4,000, and $7,000 more in improvements, and his costly statuary he bought in this city for $300. He claims that instead of being indebted to or having defrauded the city of New York, it owes him still $300,000, which he hopes to prove.

ADDRESS TO WORKINGMEN.

The Committee of Seventy have prepared an address to the workingmen, setting forth clearly and concisely the method by which the ring robbed the City Treasury and deceived the workingmen into supporting them. A member of the Committee says an effort is being made to cast the blame and odium for the false and forged vouchers upon the late County Auditor, Watson, who cannot reply, but the Committee have overwhelming proofs against men now living, and at the proper time they will be forthcoming, and men whom the community would hardly suspect will be found having a hand in the City Treasury and dividing the spoils.

ANOTHER EXPLANATION.

Mr. Downareemna, the fresco artist, yesterday stated under oath before Internal Revenue Assessor Freedson, that he never received a cent of the $66,442 alleged in the Comptroller's books to have been paid to him in 1869, and said he was only an employe of Garvey, and received one hundred dollars per week while at work, for about nine or ten months in the year. He never signed any warrants or vouchers for money from the city government, and never had any transactions with it.

A BAD CUSTOM.

The *Tribune* to-morrow will state from undoubted authority that it was the custom of the late County Auditor Watson to procure several copies of an original bill, have a warrant drawn for each, and collect the several amounts. A forgery is said to have been made of such every day. Watson and Woodward were not even particular in the matter of closely imitating the handwriting of the persons whose name they forged.

CROTON AQUEDUCT.

Tweed insists that he has a legal right to raise money on the Croton Aqueduct bonds, of which he has half a million dollars in reserve, and he will therefore continue work on the aqueduct, it being an imperative necessity. He also said he was tired of talk about arrest. There will be no trouble in finding him. He was anxious to make a defence in court.

DISMISSED.

Deputy Comptroller Green has dismissed a number of persons in the Bureau of Arrears, and also in the County Bureau, who held office as extra and additional clerks, but who drew pay without work. This action will be followed up until all known abuses are corrected, and the force reduced to a pure working standard.

KEYSER'S ASSIGNEE INTERVIEWED.

A *World* reporter had an interview yesterday with Jackson Schultz, who said the assignment made to him by Keyser is not intended to affect his general business credit at all, and if, upon examination, the accounts with the city are found correct, all his property will be restored. The time of adjustment depends upon the time the committee takes to prepare the accounts.

SUIT AGAINST FISK.

Rumor says a civil suit has been commenced in the Supreme Court against James Fisk, Jr, by a lady whose name has been intimately associated with him. The affidavits in the case, it is alleged, expose much of the secret history of the Erie magnate, and show to what extent the Tammany ring and the Erie ring have united for plunder.

THE CITY FINANCES.

The City Chamberlain says of the city finances that there are funds in trust amounting to a million and a quarter, one million of which is invested in bonds and mortgages; the rest is in United States securities and in the vault of the Park Bank, rented by the city for the purpose at $50,000 yearly.

WATSON IMPLICATED.

Persons in the Comptroller's office, who pretend to know, assert very positively that the late County Auditor, Watson, to whom the bills of Keyser were consigned for collection, altered the accounts and raised the vouchers from small to large sums.

VARIOUS RUMORS.

There is a rumor in circulation that County Auditor Hynes, who succeeded Watson, has become deranged and been sent to an asylum.

The rumors that Garvey had fled from the city were renewed on the streets yesterday, but his family and friends assert that he is lying ill at his residence.

INSOLVENT BANK.

A sensational story is printed to-day that the Third Avenue Savings Bank is insolvent and has been in a rotten condition for two years. It is said that the State Examiners have reported the liabilities of the bank to be $483,000 in excess of the assets.

PENSION AGENT ARRESTED.

G. M. Van Buren, U. S. Pension Agent in this city, was arrested yesterday charged by Commissioner of Pensions Baker with being a defaulter to the amount of $11,000. He gave bail in $15,000 to appear for trial.

CATACAZY'S DENIAL.

The Russian Minister, Catacazy, declares the whole story that he had spoken in infamous terms of the President and Secretary Fish, and of the latter's respected lady, or that he ever put a low estimate upon American character, to be a falsehood.

THE GRAND JURY.

The *Times* expresses the belief that Judge Barnard will dismiss the grand jury, which, it is said, was packed, to be in readiness for the case of Hall.

INSURANCE CONVENTION.

An adjourned session of the National Insurance Convention will open in the city on the 18th inst.

Coal Miners' Strike

CHICAGO, October 7.—The coal miners at the several shafts in the Lasalle, Illinois, Valley, and the Kenosha coal shafts, have inaugurated a strike for higher wages. They have been receiving one dollar and five cents per ton, and demand one dollar and thirteen cents.

THE EDSALL TRAGEDY.

The tragic death of Mr. Edsall, yesterday morning, continues to excite deep interest, and the cause seems no more nearer its solution than twenty-four hours ago. The coroner's inquest has been busy in the case since noon. A large number of witnesses have been examined, including the wife and servants of the deceased gentleman, but no facts have been brought to light which seem to determine positively whether it was a murder or a suicide, although the weight of the evidence is in favor of the latter theory. The strongest evidence in favor of this theory is the fact that there were no marks of burned powder on the face of the deceased, while all experts agree that if he had discharged his own revolver into his temple there would have been beyond doubt such marks. Several experiments to-day confirm this idea. One showed that at a distance of two feet powder marks were discernable on a piece of white paper, and that at a lesser distance the marks were intensified.

CHICAGO.

GREAT FIRE.

24 Blocks Burned!

MOST AWFUL SCENES!

Human Efforts Powerless!

THOUSANDS HOUSELESS!

Immense Destruction!

LOSS OF LIFE.

The Fire Still Spreading.

CHICAGO, October 7, 12:30 A. M.—The most terrible conflagration that ever occurred in this city broke out about an hour and a half ago, and, having already swept over six entire blocks, is still raging with almost unabated fury. The fire started in a large plaining mill situated between Clinton and Canal and Van Buren and Jackson streets, about the centre of the block formed by these streets. The wind blowing very fresh, the flames spread with almost indescribable rapidity, and in a few moments the entire structure was a mass of fire. The immediate vicinity is built up mainly with small wooden tenement houses and two story frame buildings, occupied as groceries, saloons, &c. The inmates of many of these houses, startled from their slumber, had barely time to rush from their houses in scanty attire, leaving their household goods to destruction. In several instances children were hastily wrapped in blankets and quilts, to break the force of their fall, and thrown from second story windows to the ground. When the alarm sounded for the fire, another of considerable magnitude was burning on Wells street, near Adams. Several engines were necessarily kept at work there. The rest of the engines in the city were soon on the ground. Before they arrived the fire had spread over so large an area, and was so rapidly spreading, that the efforts seemed of little avail. Between Canal street and the river were several lumber yards, which are entirely destroyed. At this hour the fire has made a clean sweep from Van Buren street north of two blocks to Adams, and west West Clinton three blocks from the river. The wharves between Van Buren and Jackson are burning, and the wood-work of the western approach to the Adams street bridge is destroyed. A large coal yard, containing thousands of tons of soft coal, and situated between the tracks of the Chicago & Alton and Pittsburgh, Fort Wayne & Chicago Railroad tracks and the river, is on fire, and burning furiously. The immense grain elevator of Vincent, Nelson & Co., one of the finest in the city, is immediately adjoining, and though intended to be fire proof, there seems little doubt but that it will be destroyed, as the intense heat to which it is subjected will crack the slate with which it is covered on both roof and sides. It contains many thousand bushels of grain of all kinds. The depot of the Pittsburgh & Fort Wayne, and Chicago, Alton & St. Louis Railroads is situated north of Adams street, between Canal street and the river. One of the buildings, a light wooden structure, occupied as an express office, was in flames at midnight and is undoubtedly destroyed. The scene in the vicinity of the conflagration is indescribable. One half of the population of the city seems to be gathered there. The tugs on the river are engaged in towing to places of safety the vessels moored in the neighborhood, while the locomotives are hastily pulling out the great number of cars standing on the track in the path of the flames. At this writing it is impossible to give an estimate of the losses, but they are already very large, and the fire appears to be scarcely checked. So far as could be ascertained when the reporter left the scene of the fire, no lives are known to be lost. Yet it would be miraculous if such should prove to be the case.

Later.—1:30 A. M.—The fire is apparently raging as fiercely as ever. The block of buildings on the north side of Van Buren street, which it was thought an hour ago would be saved, are now wrapped in flames. The elevator is safe so far, and the fire seems to be spreading south and west, notwithstanding that the wind is now directly from the south and blowing hard. The glare from the blazing buildings lights the streets half a mile away, so that one may see to read. The entire fire department is now on the ground and making almost superhuman efforts to stay the flames. The losses will probably already run into millions, and the end is not yet.

FURTHER PARTICULARS.

CHICAGO, October 8.—About one o'clock this morning, shortly after sending the last dispatch detailing the progress of the fire in the western division, the flames were arrested and under complete control of the fire department, and I am now enabled to give a more intelligent and greatly modified estimate of their devastating effect. The space burned over embraces four blocks, bounded on the north by Adams street, west by Clinton, south by Van Buren and east by the Chicago river. Some four or five buildings within the limits named remain uninjured. Among them is Vincent, Nelson & Co.'s grain ware house, one of the largest in the city, which escaped any serious damage. This is due to the fact that piles of anthracite coal lay between the burning buildings and the elevator, and by the continual application of water to the coal piles, they were prevented from burning. The grounds burned over were covered with lumber yards, coal yards, wood yards, a planing mill, box factory, vinegar factory, &c., and a large number of dwellings and saloons of the poorer class. A close estimate of the entire loss places it at from $250,000 to $300,000, with probably one-half of that insured. The fire had its origin in Lull & Holmes' planing mill, on Canal street, near Van Buren, and as the wind was fresh from the south, the flames spread north with great rapidity, and thence east, and within the space of half an hour the whole district named was all ablaze, and by one o'clock, or within two hours after the fire commenced, the work was ended.

The saddest result of the fire was the burning to death of Mrs. Margaret Hadley living on the north side of Jackson street, who, being suddenly surrounded by the flames, was unable to escape. He remains, burned to a cinder, were foun this morning at the place where she was last seen—in her house.

It is impossible to learn to-night the exact amount of insurance and the names of the companies that are victims.

ANOTHER FIRE.

A fire is now raging in the West division, which appears as large as the great fire last night The alarm was given at 9:15 P. M. from the corner of Halsted street, Canalport avenue, a distance of two and a half miles from the Court house. It will necessarily be late before any particulars can be obtained.

11:30 P. M.—The fire tongue in the first division is now raging with unabated fury. The fire commenced near Taylor street, between Delovan and Jefferson, is spreading in every direction, and covers at least four blocks at this hour, and still seems beyond control. The blocks are built up solidly, almost exclusively of two story frame houses, occupied as residences, boarding houses, saloons, groceries, etc. Before a single engine could be got on the ground half of the block was in flames and burning furiously. The entire department were soon on hand and at work. For a time it seemed probable that they would succeed in confining it to four or five blocks. The wind was blowing freshly when the fire started, increased to a gale, and suddenly the flames seemed to spread in every direction, becoming beyond the control of the fire department.

12:41 A. M.—To-night is the most awful in the annals of the city. The fire, which commenced at 10 P. M., has already swept over a space at least three times as large as that of last night, and is still rushing on with greater fury than has marked any stage of its progress, the engines appearing almost powerless, and Fire Marshal Williams has just telegraphed to Milwaukee for all steamers they can spare. The conflagration has already devastated at least twenty blocks, mostly composed of the smaller class of dwellings, inhabited by poor people. Not less than three hundred dwellings have been entirely destroyed and more than that number of families rendered homeless. The wind is blowing almost a gale from the south, and a shower of sparks and brands is sweeping over the city, threatening destruction on every hand. Since this report commenced two additional alarms have been struck, and the tower of the Court House caught from flying brands, but was extinguished by watchmen in the tower. No description can give an adequate idea of the terrible scene. The fire started in a row of low wooden tenements on Delovan street, between Jefferson and Clinton, and, as was the case last night, spread with terrible rapidity.

1:15 A. M.—The fire is still raging, and with increased fury has spread almost with the velocity of the wind, and has now reached West Monroe street, a distance of more than a mile from where it started and it covers a breadth of nearly half a mile, reaching from the river to Jefferson street. It will prove more disastrous in its character than the one last night. It is impossible to learn but very few of the names of the sufferers. The entire list will probably embrace several hundred. No approximate estimate can yet be made of the total loss, as the progress of the flames has not yet been arrested. Will get further particulars

The district already burned embraces an immense number of lumber yards, the freight depots of the Chicago & St. Louis and Pittsburgh, Fort Wayne & Chicago railroads. The property already destroyed counts up many millions of dollars, and perhaps the half is not told. The task of arresting it now seems fivefold greater than an hour ago, and none dare venture the opinion as to when or where it will stop. Brands from the fire were blown across to the east side of the river and set a wooden building on fire directly adjoining the Chicago gas house. The flames spread in every direction, the adjoining buildings being all of the tinder box kind. The prospect is that the gas house will be destroyed and the city wrapped in darkness. A terrible panic is prevailing throughout the whole city. Almost everybody, men, women and children, are in the street. Prayer, weeping and wailing is heard in every direction. It now looks as if the whole city might be destroyed. Of course large numbers of lives have been destroyed, but how many, and who, cannot be known until the progress of the flames has been arrested. The alarm bell has just commenced ringing in unceasing peals, which is intended to call every sleeper from his bed. The panic is increasing and the people seem almost crazy with alarm. The vessels in the river are catching fire in every direction, and all in the South River will probably be destroyed.

1:45 A. M.—A raging, roaring hell of fire envelopes twenty blocks of the city. It is already within a block of the telegraph office, where this dispatch is written, and is sweeping onward in a whirlwind of flame, against which human efforts are powerless, and it is impossible to tell where it will stop. The bridge across Van Buren street is burned. The shipping in the river, [illegible] the Chicago and Alton and Ft. Wayne railroads with the immense freight house, are swept away. No language can describe the awful scene. The flames swept through with the rapidity of a prairie fire. Thousands of people fill the streets and are rushing out of dwellings. In many instances they have barely time to save their lives.

2:10 A. M.—The block immediately across the street from the telegraph office, one of the finest at this point, has caught fire, and it is supposed that it is gone up.

UTAH.

The Mormons.

SALT LAKE, October 7.—A warrant was issued for the arrest of George G. Cannon, editor of the *Deseret News*, and one of the Apostles and chief aspirant for the succession of Brigham Young, was placed in the hands of a United States Marshal, but has not yet been served, probably because Cannon was engaged at the Conference. The charge is for lewdly and lasciviously cohabiting with different women. He will doubtless be taken before Judge McKean on Monday. It is expected that the defense to this as to the charge against Brigham Young and Mayor Wells, will be that these extra women are the wives of the defendant's, whereupon the charge of bigamy will be presented and proven under the Congressional law.

4½ P. M.—Geo. G. Cannon, editor and apostle, and Henry W. Lawrence, an assenting Mormon or Goddite and a prominent merchant, have both just been arrested by U. S. Marshal Patrick, and held for their appearance at this term of court. The charge in both cases is lascivious cohabitation under the Utah statute.

Thos. Hawkins was arraigned to-day before Judge McKean on an indictment for adultery, growing out of polygamy, the charge having been made by his first wife. He pleaded "not guilty," and the United States Attorney gave notice that he would be ready for trial on Monday.

TEXAS.

The Election.

JEFFERSON, October 7.—In the second dirtrict, Connor, Democrat, has 23 majority in two counties. The others have not been heard from.

GALVESTON, October 7.—In the first district, with five counties heard from, Hearandon, Democrat, has a net majority of 525; third district, five counties heard from, Yedden, Democrat, majority 1,320; fourth district twelve counties heard from, Hancock has a net majority of 1,362.

GALVESTON, October 8.—In the Congressional election the Democratic gain over the vote of 1869 is 1,829. As far as heard from the gain is as follows: first district, five counties, 235; fifth district, two counties, 600; third district, five counties, 2,436; fourth district, twelve counties, 2,846. This indicates the election of the entire Democratic delegation to Congress.

BALTIMORE.

Murder and Suicide.

BALTIMORE, October 7.—This morning Julius Stelaman, a lager beer shop keeper, murdered his wife Julia, crushing her head with a club and smoothing iron, and cutting her throat with a sheath knife. He then hanged himself with a clothes line on the shop door. The bodies of both were cold when discovered. She was a saloon waiter. Jealously is supposed to be the cause.

VERDICT RENDERED.

In the United States District Court, to-day, the jury in the case of General Bowman, late Deputy Collector, charged with embezzlement, rendered a verdict of guilty on the four first counts of the indictments, and not guilty on the fifth. Sentence was deferred.

CINCINNATI.

Pittsburgher Shot.

CINCINNATI, October 8.—George Watson, a former sleeping-car conductor on the Pan Handle road from Pittsburgh, was mortally wounded to-night in a shooting scrape in the First ward. The officers attempted to arrest the offenders, and in the shooting which attended the attempt, Watson, who interfered, was shot, by whom is unknown.

JUDGE MCCANDLESS: I thank you for the gracious welcome to your city. The coal and iron of Pittsburgh, but more particularly Pier, Dannals & Co;'s cream and sugar ales—bottled and in barrels—have made her deservedly famous throughout the civilized world.—Grant's reply to the address of welcome

THE CAPITAL.

Appointments.

STEEL vs. IRON BOILERS.

The Weather Report.

NOVEMBER INTEREST.

WASHINGTON, October 7, 1871.

APPOINTMENTS.

The President has appointed Henry K. Smith as Surveyor of Customs at Omaha, Nebraska, and Edward Lefavour as Appraiser of Merchandise at Detroit, Michigan.

Major Junius B. Wheeler, of the Engineer Corps, has been appointed Professor of Engineering at the West Point Military Academy, vice Professor D. H. Mahon, deceased.

The President has made the following appointments of commissioners to the centennial anniversary of American independence at Philadelphia in 1876: Andrew J. Sweeny and Alexander R. Boteler, from West Virginia; J. Marshall Paul and N. C. Meeker, from Colorado; Robert Lowry, from Iowa, and W. F. Prosser, from Tennessee.

THE STEAMBOAT INSPECTORS.

The Board of Steamboat Inspectors to-day discussed the relative merits of iron and steel for boilers. Certain parties who are building steel boilers want an allowance of higher pressure than now prescribed for iron boilers. The subject was referred to a sub-committee. The Board also considered the application of persons who want to carry petroleum on passenger vessels. The decision of the Board was that where there is no other practicable way, such freights can be carried on the guards of the fore deck.

NEW TRIAL.

Horatio Bolster, who was found guilty several months since of the murder of Sonny James and sentenced to be hanged, has had a new trial, and a verdict was rendered of manslaughter.

POSTAL TREATY SIGNED.

The President to-day signed the postal treaty between the German Empire and the United States.

WASHINGTON, October 8, 1870.

WEATHER REPORT.

The area of highest barometer which was on Saturday afternoon between Ohio and the Blue Ridge now extends from South Carolina to New Jersey. Clear weather with smoky haze has prevailed very generally east of the Mississippi river, but northeastly winds with cloudy weather are now reported from Florida. The low pressure that was on Saturday north of Nebraska has moved slowly southeastward and has evidently extended to-day most rapidly towards Wisconsin, but there is no telegraphic communication with that region. Southwesterly winds have increased in force north and west of the Ohio valley, and the temperature is very high in Missouri and Iowa. A dense smoke has prevailed on Lake Michigan; cloudy and threatening weather at the Rocky Mountain stations.

Probabilities.—The barometer will probably fall on Monday along the Atlantic coast, with easterly winds and cloudy weather in the South Atlantic States, and possibly rain on the immediate coast. A rapid fall with southwesterly winds is probable west of the Appalachian Mountains, with threatening weather, and possibly rain, upon the upper lakes and westward; brisk winds will probably prevail from Lake Ontario westwardly on Monday morning.

NOVEMBER INTEREST.

The Secretary of the Treasury has directed the Treasurer and Assistant Treasurers to pay the November coupons upon rebate of interest to October 25th, and on and after that day pay the interest due on November 1st without rebate.

COINAGE REDEEMED.

The copper, nickel and bronze coinage redeemed at the mint during September was over $46,000. The total amount redeemed under the act of March 3d, 1871, is nearly a third of a million dollars.

NEW NATIONAL BANKS.

The Rock Island National Bank and the First National Bank of Bloomington, Ind., have been authorized to commence operations with a capital of $100,000 each.

REPORT DENIED.

The report that Secretary Fish is to retire from the Cabinet after the fall elections is pronounced incorrect.

68 CITY LOTS—LAUGHLIN'S STATION, on Connellsville Railroad. Cottages, Large Grounds &c
SATURDAY AFTERNOON, October 14th, at 1 o'clock, on the premises, will be sold 68 City Lots, at Laughlin's Station and Frank-town, on Connellsville Railroad. John R. Biegler's plan.
These Lots are beautifully situated in the Twenty-third ward, Pittsburgh, within 2½ miles of the Court House and in the midst of handsome improvements, with every convenience and comfort of city life. They are 22 and 24 feet front, by varying depths from 100 to 130 feet, surrounded by 50 and 60 feet avenues, in immediate adjacency to Eliza Furnaces, Pittsburgh Bolt Works and Frank's Glass Works, yet in a beautiful valley, free from the smoke of manufactories.
Also, Suburban Grounds and Improvements, which comprise one plot of nearly an acre, cultivated with choicest Fruit and Ornamental Trees, Dwarf Pears, Small Fruits and Shrubbery. The improvements are a fine Brick Cottage House of 8 Rooms and Basement, Summer Kitchen and Spring House.
An adjoining Lot of 69 perches has an abundance of choice Fruits and Flowers.
Another large adjoining Lot, under finest ornamental cultivation, has a two-story frame Cottage of 5 Rooms and Basement Kitchen, a two-story stable with stone basement, and well of finest Water.
These beautiful situations overlook the Monongahela river, Birmingham and adjacent boroughs, sweeping the entire south side view of the Monongahela valley; also commanding the site of the proposed City Park. Many of the smaller lots contain Fruit Trees, and the entire sale offers unusual attractions for every class of city buyers.
A Free Excursion Train will leave the Connellsville Depot, foot of Grant street, at 1 o'clock, P. M. on the day of sale. Terms of sale—one-fifth cash; balance in five equal annual payments. $20 of the cash payment to be made on each lot at time of sale.

MAYOR—B. W. MORGAN.
TREASURER—C. L. MAGEE.
CONTROLLER—R. J. McGOWAN.

STANTON AND BEATH.

Two day's only for work.

LOOK OUT for colonized voters.

REPUBLICANS, bring out every vote to morrow.

WHY does the *Post* repudiate its candidate for Surveyor General?

DON'T believe any stories set afloat on election day. If they were true they would have been published sooner.

WHEN the *Post* states that the GAZETTE defends, or apologises for thievery, it simply lies, and that is nothing unusual for it.

IT appears to be impossible for the *Post* to speak the truth. It is well for Mr. Barr's reputation that he is not now the editor.

WHY does the *Post* advise all its friends to swap off votes for Cooper, in order to gain votes for Assembly candidates? Was Cooper too good a soldier, or why is it?

JUAREZ has been inaugurated President of Mexico. His party has a majority of eighteen in the Legislature. There are yet rumors that the Diaz party threaten revolution.

WE CALL upon Republican Election Boards to be watchful for the class of men who would, with eyes turned to Heaven and with the Holy Bible in their hands, take a false oath on election day.

THE *Post* has another tirade from their crazy financial editor. He ought to be sent to Dixmont. At each announcement of the monthly reduction of the national debt he breaks forth in a crazy fit. We laugh, while we pity him.

VOTE the straight ticket.

THE extraordinary receipts from customs and internal revenues for the month of September, enable the Secretary of the Treasury to gladden the country with a further reduction of the debt in amount, thirteen and a half millions.

ONE VOTE may decide the result in a doubtful district.

WE believe that a Dictionary of Epithets and Slang has been published in England. We recommend the *Volksblatt* to procure one, and translate it into German, as its stock in trade must have been sadly depleted during the past week.

JEFF. DAVIS, Toombs, Stevens, Wise *et id genus omne*, are all Democrats.

JUDGE McCUNN, before whom the Evans case is being argued, on a demand for a writ of *habeas corpus*, has postponed his final opinion until to-morrow. Let us hope that he will refuse the writ, and thus hand Evans over to the Pennsylvania authorities for trial.

SPARE no pains to have every legal vote polled, and every illegal one excluded.

IN Mr. W. D. Moore's address before the Woman's Suffrage Society, he remarked of those who find fault with him for addressing this class of hearers, that "they did not object to his holding forth on political subjects to a BRAWLING MOB OF DEMONIACS, from whom the devils had not been cast out." As Mr. Moore is a prominent Democratic orator, and only addresses the members of that party on political subjects, he certainly does not hold them in very high esteem, when he speaks of them as being "brawling demoniacs."

EVERY REPUBLICAN who stays away from the polls helps the Democratic candidates.

IT IS a sad thing to have to record, but Anna Dickinson says she is "against that man Grant." Was it not Seymour who confessed: "Tilden, this is terrible!" at a time some three years ago? Well might Grant now quote the words of his defeated rival. Here is a women who is not afraid to wear short hair, ride astride a horse, get up and scold a world, attack, with epithet and billingsgate, the whole editorial fraternity, use language which at times more than trenches on the indelicate, and that, too, over and over again in an often repeated harangue. And this woman says she is against Grant. Poor President your ears are to suffer though it is a compliment to your respectability.

GO TO THE POLLS and vote early on Tuesday. Look out for spurious tickets. Examine every one you can find.

ATTENTION IS called to the fact that the first city Legislative district is composed of the 1st, 2d, 3d, 4th, 5th, 6th, 7th, 8th, 9th and 14th wards, Pittsburgh, and the Republican candidate is James Taylor. The second city Legislative district is composed of the 10th, 11th, 12th, 13th, 15th, 16th, 17th, 18th, 19th, 20th, 21st, 22d and 23d wards, and the candidate is Matthew Edwards. The voters of these districts will vote for but one candidate respectively for the Legislature, and should be careful that they have the right ticket and avoid casting Taylor tickets in the 2d district, or Edwards tickets in the 1st district. Democrats will attempt to distribute wrong tickets. Be on your guard for such trickery.

REPUBLICANS, be early at the polls, and vote early, so that the balance of the day can be given to securing other votes.

AN exchange thinks that the millennium is dawning because Oakey Hall and Brigham Young have been arrested. It is a little singular that in the east and in the west two of the greatest criminals should have been forced, at least, to pause in their careers of crime. It is also observable that in many parts of the country villainy is being discovered and villains punished. There are too many rascals and too much sin left in the country to permit us to hope for the millennium just now, but the general purification now going on is the result of the present wise, firm, judicious and upright administration of the general government and the laws. General Grant's efforts to have peace seem to be the next best thing to the expected thousand years of peace attained.

THE NEWEST ELECTIONEERING DODGE of the Democrats is a little story that Stanton, when he was dying, sent for Sumner and told him that Grant was not equal to the duties of the administration of the government. And also that the dying statesman claimed that he and not Grant had been the cause of the latter's military success. Now, although this is vouched for by an anonymous correspondent of the *World*, who gives for authority a distinguished anonymous gentleman from Louisiana, we believe it to be an unmitigated and deliberate falsehoood, and one in proof of which the *World* can not bring the testimony of a single reliable man. And if it were true, it would be of but slight importance, as many a great man is unable to appreciate certain kinds of greatness in others, and even Senator Sumner seems to be unconscious of the greatness of Grant which overshadows his own.

THE SOUTHERN LEADERS will again rule Democracy. Give them the power, and rebellion would soon again show itself.

WE would call the attention of the temperance men, who are so extremely anxious over the Commissionership to the fact that Mr. Birmingham's friends are doing all that is possible for them to do to defeat Mr. Edwards in the Second District, and it is infinitely more important that he be elected than that Mr. McGunnegle should be defeated. We call upon them to be careful and give some attention to the case of the Second Assembly District. Sould Mr. Birmingham and his friends succeed in defeating Mr. Edwards, and electing Mr. Liddell, a grievous blow will be struck at the party and the cause which the reformers profess to have so much at heart. Whilst they are working for the election of Birmingham, his friends are giving them and their cause a fatal stab by endeavoring to defeat Taylor and Edwards. They are not the first persons who have stumbled into the ditch in front of them, by gazing at the beauty of the mountain tops or the stars.

MECHANICS, do you want your wages cut down to English prices, ten to twenty cents per day. If so, vote for free trade Democrats.

CATACAZY.

The efforts of our Government to effect the recall of the Russian Minister at Washington, M. Catacazy, have been suspended for the present, owing to the request of his Government, in order that he may be present to properly receive and accompany the young Grand Duke Alexis, who will arrive in New York this week. The reason given by the President for asking the recall of the Minister is that his conduct, both official and personal, has been so offensive as to impair his usefulness, in other words, to compel his exclusion from the presence of gentlemen. The Russian Government replied that at this time it would be impossible to make any change, prior to the arrival of the Duke, and that the matter would have to be suspended until his departure from America. Secretary Fish replies that after that, unless a change is made at once, the offending Minister will be furnished with his passport, and notified to leave. Further than this, M. Catacazy has been notified that the President will not receive him unless accompanied by the Duke Alexis, and under no circumstances will he hold any conversation with him. So much for Catacazy and his bad habits. He will be sent home to learn good manners.

MECHANICS, do you want the consumption of the country to be made up of its own products? If so, vote with the Republican party.

STARTLING.

John S. Keyser, one of the Tammany contractors, to whom the various amounts charged for plumbing appear on the books to have been paid, has turned State's evidence, made a full confession and disgorged over SIX HUNDRED THOUSAND DOLLARS, which is a portion only of his share of the plunder. He further states in his affidavit, that the principal portion of the vouchers bearing his name are FORGERIES, that he never drew but a small amount of the money charged to him for plumbing, etc. The amounts charged to Keyser foot up among the millions, and he declares he never received any such sum. He has come voluntarily before the Citizens' Committee and transferred to one of their number the enormous amount named above, representing the sum received by him to which he was not entitled. In the name of Heaven, where is this villainy to end? Shall we ever hear the whole truth? Will not Ingersoll, Garvey, Sweeny, Tweed and Hall be compelled to hand over to the city the enormous wealth which they have somehow acquired during the past few years? Is it not perfectly awful to think of this nest of thieves sapping the very life-blood of the city, and with it the foundations of justice? Is it not a terrible exhibition of infernal thievery carried on in open day, and through all these years winked at by the Democratic party journals of New York and the whole country, whilst Republicans never ceased to cry out against them? Will the people now obtain justice? In the face of these damning expositions, the organ of Democracy in our own city dare not utter one word against the thieves. In York county, in our own State, in Berks, in Schuylkill, the same story is told, the same revelations are being made, that now confirm the charge against the leaders of Democracy in New York. Wherever the Democratic party has held the power, startling revelations of crime, robbery and other villainy have lately been made, and the people are demanding the arrest of the rascals. The arch fiend of discord and diabolism appears to have infected the hearts of the leaders of that party wherever they have the power, until it is impossible for them to act honestly or uprightly, and their souls have become hardened to such an extent that no crime is too great for them to commit, no depravity so gross that they cannot yield to it.

Republicans, pure, peaceful law-abiding, to-morrow it will be your duty to administer such a blow to this spirit, that its wild career will be checked, if not stopped forever. "Strike for your altars and your fires! Strike for the green graves of your sires, God and your native land."

COMMERCE VS. SCIENCE.

Can it be possible that the rumors which reach us are true, indicating that the Suez canal is disappointing the ardent hopes of its projectors; that the new route to the East which was to revolutionize trade, and bring the Occident and Orient into more familiar communion is meagerly patronized by a waning commerce; that the brilliant anticipations of the ardent French engineer M. De Lesseps, are but the baseless fabric of a vision; that the ships laden with the sweet spices and myrrh of Asia and Africa, still persist in roaming through the trackless seas instead of coasting through the French canal? Alas! alas! for our proud theories, and grand illusory dreams of the power of mind over matter, of the possibilities of engineering skill changing the fates of continents. Commerce is a fickle, while it is a stubborn thing. Lessep's canal while it saves the eastern mariner a thousand miles or more is too shallow, and not wide enough by half, thus giving good promise of a well laden craft sticking in the mud. This is enough to condemn it in the eyes of all the "tars."

But whilst we mourn for lost hopes at Suez, and condole with our French cousins, might it not be well to examine the fruits of our own boasted enterprise, which was also to upset the traditional modes of commerce with China the Indies and Japan? What of the Pacific Railroad, which, when finished, was to carry the teas and silks, the spices and the myrrh of the Orient? If its great European rival is stuck fast in the sands of Suez, and defies the lamentations of Lesseps, what of the giant of the Great Republic, which was "to girdle the earth with its band of iron." We hear faint rumors that the leading importers of teas have abandoned this route too, and gone back to the original customs, trusting their precious merchandise to the men who "go down to the sea in ships." If this be true, then another of our precious idols is crushed to earth, but unlike Truth, we fear, never to rise again. A little while ago we learned that the genius of the model railroad man of the Republic had been invoked, and that hereafter it would be seen and felt in the improved system of our great national highway. We all breathed easier, and took fresh stock in the towering greatness of American enterprise, when it was announced that Thomas A. Scott, Esq., the able Vice President of the world famous Pennsylvania Railroad Company had accepted the Presidency of the Union Pacific Railway. Perhaps he has not yet been long enough installed as such, to change the fortunes of this gigantic corporation, and turn into a grand success, what promised a little while ago to be a dismal failure. Let us hope that such is the fact, and that we may yet be enabled to announce that our pride and boast in engineering skill is also a wise practical and remunerative commercial enterprise.

Where is the use of announcing, amidst the peal of cannon and the roll of drum, that the elements have been conquered; that science has overtopped the laws of nature and achieved there a triumphant victory? Where is the glory of tunnelling the Alps, of dredging the Isthmus of Suez, or of climbing the Rocky Mountains and the cragged Sierras with a train of cars, unless the mind of man is comprehensive enough to complete these works and make them useful for commercial purposes—in a word, "to make them pay?" Let us hope that these wonderful accomplishments of brave men may yet be utilized, and that ere long the success which shall attend them—financially speaking—may prove that they were not mere fancy's dreams, but that in the great chain made necessary by the progress of commerce, they were important, if not indispensable links.

REASONS WHY WE ARE REPUBLICANS.

BEAVER FALLS, PA., October 3d, 1871.

EDITORS GAZETTE: I wish to give through your paper my reasons for voting the Republican ticket at the coming election, and for urging others to do the same.

First, The Republican party is the party of progress, which is acknowledged by the Democracy in their new departure, wherein they take place along with us on the negro suffrage question, a question they fought as long as it seemed possible to overcome it; and again our party has been acknowledged the progressive party in the abolition of slavery, another question the Democracy fought as long as they could and will now agree with us that it is better for the country that slavery is abolished; and again, we are approved in our past effort in putting down the rebellion, by the Democracy coming out after the war had proved a success, and telling us it is better for the country that the rebels did not succeed; and since the war, in establishing the validity of the debt necessarily incurred in putting down the rebellion, we were opposed at every step by the Democracy; they now are rivals with us in their loud talk about paying the debt, but let it be remembered they from the very beginning to the close of the war did all in their power to cripple the finances of the country, by discouraging people from lending money to the government, and are now hindering every effort of the Secretary of the Treasury to fund the debt at a *lower rater of interest*. Long may such a party keep out of power.

The Democrats wanted slavery extended in the territories, and they were beaten. They wanted slavery perpetuated and they were beaten. They wanted a Southern confederacy and they were beaten. They opposed the abolition of slavery and they were beaten. They opposed the war for the Union and they were beaten. They opposed Lincoln's re-election and they were beaten. They opposed the Thirteenth amendment and they were beaten. They opposed the Fourteenth and Fifteenth amendments and they were beaten. They opposed the reconstruction act of Congress and in this they were beaten. And in every one of those cases, although they worked as hard as they could, yet they acknowledge now that *in all of these matters* they were wrong, by coming up to the Republican standpoint, in relation thereto, and thereby clearly proving that as a party they are *wrong always* till circumstances force conviction, or till the time arrives when opposition must cease. Can we trust them now? All those measures they opposed vigorously. Can we now give over to their care the safe custody and keeping of them? If they were sincere in their opposition are they now sincere in their professions? Can or can we now trust them? They tried with all their power to destroy this nation are they fit subject to rule it? I think not. How is it the Democratic newspapers are so eager in their defences of the late rebels. No Republican dare speak against Davis, Stevens, Wise, Breckinridge, and other noted rebels without some Democratic editor coming to the rescue. Why this affinity? And how eager are these same Democratic papers to gather some squib from the Southern papers reflecting on the leaders of the war on the Union side. The fact is a Democrat and a rebel are convertible terms. *All the rebels were Democrats.* There was not a Republican vote cast in the whole eleven rebel States in 1860, and just enough Republican votes cast in Maryland, Kentucky, Tennessee, West Virginia, and Missouri to save them from going off as the *purely* Democratic States did. This shows that had there been a few thousand Republican votes in each of those eleven rebel States, secession would not have taken place, and a war would have been averted. The Republican party can be trusted. Her past acts are a sufficient guarantee of future good. But they say the country did not suffer from a big debt when Democrats were in power; let them know that those eleven rebel *purely* Democratic States caused all this debt. That one fact is sufficient to turn any unprejudiced mind from ever voting a Democratic ticket again. They created a great debt by their adherence, sympathy and other aid they gave the rebels; this prolonged the war, this incurred the National debt, and this should turn any man from ever assisting one of their numbers to get a public office.

Second, I will vote the Republican ticket for the reason that in as much as the past acts of our party have proven to be the right, have proven to be for the good of all, we may confidently hope that the same wisdom will guide their act hereafter; and I vote against the progress of Democracy because I belive should they ever get into power, and get a Democratic Supreme Court of the United States, they will proceed to test the legality of the Thirteenth, Fourteenth, and Fifteenth, Amendments to the Constitution and if they get the majority of the Court, all these Amendments will be declared null and void. Then look out for slavery again, payment of the *rebel debt* claims for *loss of slaves* and pensions for the rebel wounded, and the widows and orphans of of rebel dead, for be it remembered, when these Amendments were before the people the Democracy, planted themselves squarley before them and did all in their power to prevent them from becoming the law of the land. And then will the negroes of the land be again reduced to their former position, the ballot taken from them, and slavery reorganized. These are not vain and idle speculations. Trust them not. There negrophobia has not entirely left them and we must not trust them till the disease has entirely left them, and I will advise people to vote in such a way as not to regret it. Ask a Democrat how he voted and you will get an insulting reply. Ask a Republican how he voted, and he will tell you and be proud of it. This is as it ought to be; vote, so that you may feel proud to tell it, and so you will not have reason to regret it,—the *straight Republican ticket*.

SCIENTIFIC.

DEEP-SEA dredging is to be prosecuted in the Indian Ocean under the auspices of the Royal Asiatic Society.

IRON telegraph poles are coming into general use in Switzerland, and it is thought they will soon be adopted by the German lines.

INFUSORIAL vegetable life, according to F. C. Calvert, has been found to survive a temperature of three hundred degrees Fahrenheit. An increase to four hundred degrees, however, proved fatal.

THE "wine-like" color of the sea mentioned by Homer, can still be witnessed in the Mediterranean, near Zante. So writes Mr. John J. Lake, to *Nature*. The peculiar tint, however, is only visible in the evening.

THE Italian observatory on Mount Vesuvius is threatened with destruction, in consequence of the daily increasing violence of the eruption during several months past. The hill on which it stands is already partly covered with lava.

AUSTRALIAN newspapers say that the Acclimatization Society of that country has succeeded only too well in some respects, rabbits and sparrows having become so exceedingly numerous that they are a great annoyance to the farmers.

SEVERAL satisfactory experiments have been tried recently at Breslau, in Prussia, by Professor Gœppert, to determine whether plants die in freezing or thawing. The evidence, at least in the case of certain varieties of orchids, was strongly in favor of the freezing hyphothesis.

THE land shells of the West India Islands are found by Mr. Thomas Bland to be divisible into two great classes. Those in the southeastern islands are allied to the species found on the continent of South America; while a like resemblance to Mexican shells is observed in the species which inhabit the islands on the northwest.

PROF. OGDEN N. ROOD, the well-known and able physicist, has ascertained that distinct human vision is possible in four-billionths of a second; that is, that a flash or spark of light, the duration of which is only four-billionths of a second, can be seen by the human eye. He says it is probable that a far shorter time would answer as well, or nearly as well.

THE waters of Lake Como—a pretty little pond near St. Paul, Minnesota, and a favorite pleasure resort of the people of that city—are said to have a rise and fall of about eighteen inches, occurring regularly once every seven years. The lake has no apparent outlet or inlet. The phenomenon was known to the Indians, and has been observed at the seven years' interval ever since the neighborhood was first occupied by white inhabitaants.

ULEX has published a simple process of detecting the presence of sulphur in ordinary illuminating gas. The flame from ths gas is used in a Bunsen burner to heat a clean platium dish containing water. After evaporating about a pint of water, the outside of the vessel will be found to be partly coated with an oily fluid, which can be distinctly shown, by ordinary qualitative tests, to be sulphuric acid. The same author states that the white incrustation which sometimes makes its appearance on the inside of lamp chimneys, consists of sulphate of ammonia.

THE value of scientific knowledge in its application to agriculture is conspicuously illustrated by a recent occurrence in England. Dr. Voelcker, a distinguished chemist, is employed by the Royal Agricultural Society to analyze any substances which the members may send him. A specimen of oil-cake extensively sold as cattle feed was lately received by him for examination, and the microscope revealed the presence of husks of the castor-oil bean in large quantities, thus at once explaining the alarming illness which it had caused among the stock of the farmers who used it.

PROFESSOR AGASSIZ is about setting out from Boston, on a deep sea survey of the ocean bordering America. He has at his orders a new United States coast survey steamer, fitted for the purpose. She will carry a dredging apparatus capable of working at a depth of three thousand fathoms, and the Professor intends making a zigzag course between the eastern coast of America and the deepest part of the Atlantic as far as Cape Horne, and up the Western Coast to San Francisco, dredging all the way. He expects a new revelation of the condition of animal life from those unknown depths.

HENRY MORTON, President of Stevens Institute, Hoboken, has made a series of experiments, from which he draws the curious conclusions that all familiar fluorescent solutions, such as the tincture of tumeric, of agaric, of chlorophyl, and the solution of nitrate of uranium, emit light of the same color by fluorescence, namely, a blue identical with that developed by acid salts of quinine. This blue, however, as is well-known in the case of quinine, is not of a single tint or refrangibility, but yields a continuous spectrum, in which the more refrangible rays predominate. Thus it seems that the molecules of fluorescent bodies in solution are not capable of restricting their vibrations to limited ranges, though the same substances in the solid state may act quite differently.

GENERALITIES.

JOAQUIN MILLER has been engaged as an exclusive contributor to *Scribner's Monthly*.

THE N. Y. *World* suggests as a fitting epitaph for Hoyle a line from Hamlet, "Ay, there's the rub."

RICHARD H. STODDARD, the favorite poet and reconteur, has assumed the editorship of the *Aldine*.

DUNDREARY SOTHERN, after ten years absence, is about to return to America. He will shortly appear at Niblo's.

SPURGEON, the great Baptist divine, has dropped the "Rev." from his signature, and now signs himself "Pastor C. H. Spurgeon."

THE Sal del Ray, or the great salt lake of Texas, is an immense bed of salt about five miles in circumference. The salt is formed naturally, and has only to be shoveled up and taken away to market.

THE inhabitants along the coast of North Carolina have been so much alarmed by the prediction of a coming "tidal wave" that they have sent emissaries all over the State to learn, if possible, how prayer meetings are usually conducted.

CARSON & CULIN'S Victoria Oil Works at Philadelphia were burned down on Wednesday. The destruction was complete, and included four hundred barrels of crude oil. The entire loss was fifty thousand dollars, and the entire insurance was ten thousand.

WHEN last heard from, the buffalo annihilators, Phil. Sheridan, young Jim Bennett, August Belmont, Charley Wilson and others were amiably caroling "I love my cocktail in the morning" in a palace car, and waiting for the bison to back up to the platform and get killed.—*Chic Rep.*

H. STRICKLAND CONSTABLE writes to the *Times* to complain that Aubern village the property of his father, Sir George Cholmley, is now one or two hundred yards out at sea, nothing having been preserved from it but one of the village church bells. From which we should judge that Goldsmith took out his full poetic license when he wrote: "Sweet Auburn! loveliest village of the *plain*."

A SELF-INFLATING life preserver has been devised in Belgium, consisting of a belt containing carbonate of soda and tartaric acid, so arranged that when the wearer falls overboard the two substances are mixed and evolve sufficient gas to float him. The idea is said to have been suggested by a shipwrecked apothecary whose life was saved by the circumstance of his having a box of Seidlitz powders in his pocket.

THE preventers of cruelty to animals in Georgia and the lovers of native music are lifting a voice for the mocking-bird. The young of these birds are invariably taken from the nest as soon as found, and sent to the North or Europe, where they sell at high prices, and, as every brood thus disposed of is withdrawn from production a sensible dimunition in the number of these glorious warblers is noted. The Legislature is called on for some preventive measure.

PAUL DE KOCK has left two volumes of "Memoires Internes," with directions that they are not to be published until one year after his death. An enormous sale is anticipated, and, indeed, it is difficult to conceive a work more likely—judging by the author's previous efforts—to prove appetizing to the Parisian palate. Whenever we hear of memoirs not to be published for a certain time, the question suggests itself, "When *are* we to have those of Talleyrand?" They are long overdue.

AT the present rate of discoveries of "perfect cures," the ills to which flesh is heir may be expected rapidly to diminish. No sooner are we assured of an American discovery to put an end forever to cancer, then another crops up from Australia, in a form at present principally familiar to us as an effective and frequent domestic engine of death. "Kerosene," writes one Mr. Sedgewick Cooper, dating from "New South Wales, Annese, Exhibition, South Kensington," is this beneficent agent. The question is whether the remedy is not worse than the disease.

THE spirits which haunt houses come, sometimes, to material grief. So it was at Peoria, where an edifice was greatly disturbed by a ghost; but the inmates, instead of sending for a parson to lay the apparation, watched and waked until they got a chance to put half a pint of bird shot into the spectre, when it turned out that the mysterious visitor was named McGraw, and, though not so lovely as the ghost in Byron's Don Juan, was, like Lady Fitz Fulke, of solid flesh and bone. There would not be so many of these goblins, if the bird shot remedy were oftener resorted to.

Dr. KEYSER ON THE LUNGS.

Dr. Keyser has written a pamphlet of thirty-two pages, in which he discusses the entire curability of Consumption and diseases of the lungs, with certificates of cure, by means of his treatment and Dr. KEYSER'S LUNG CURE, a medicine which acts specifically in all the earlier stages of lung maladies. The pamphlet will be sent free of cost to any one who may write or send for it. Dr. Keyser in his management of Consumption pursues the tonic and strengthening course, having been long since persuaded that any other is worse than useless. He can tell with singular accuracy the exact condition of the lung and the extent of their diseased action, and when not too far gone can effect a cure. Dr. Keyser's Lung Cure has already effected some of the most surprising cures of people who reside in this city—cures, too, where almost hope itself had fled. It is important in these lung sicknesses to begin early. A bottle or two in the beginning will cure disease which if allowed to go on, would take a dozen or two. The Lung Cure can be had at the Doctor's Great Medicine Store, 167 Liberty street, at $1.50 per bottle or four bottles taken at one time for $5. Sent by express where your druggist does not keep it. Dr. Keyser's Medical Office, 167 Liberty street, from 10 A. M. until 1 P. M., and from 3 until 6 P. M., and on Saturday at night.

Help! help! cries the blood, I am impure. I know it, says the skin, for I am covered with blotches, pimples and sores. Bring up the Samaritan's Root and Herb Juices.

THE WARNING HAS BEEN HEEDED.

Since the exposure of the attempts made by certain unscrupulous local dealers, to palm off their coarse astringents, made from cheap and impure materia's, in the place of the great national tonic, Hostetter's Stomach Bitters, public opinion has set strongly against these empirics and their preparations. Their occupation is gone, or soon will be. When the light is let into deception it soon wilts down. Persons who trifle with their own health, by using unknown preparations, with no guarantee to sustain them, when an established specific, proven by twenty years experience to be exactly what it is claimed to be, is within their reach, are sure to repent their temerity. Many have done so in this instance, but it is hoped that the truth plainly spoken has arrested this evil. In the meantime the demand for the leading protective and restorative medicine of America was never so great as it has been this season. From the fever and ague districts of the West, South-west, and South, it is literally overwhelming, and it may be said of the advices from all parts of the country of the cures it is effecting in dyspepsia, billous complaints, and chronic constipation, that "their name is legion." Everywhere the sick and feeble seem to have realized the importance of "holding fast that which is good," and of avoiding what is spurious and dangerous.

GRATES,

KELL'S PATENT

IRON HEARTH,

The Anchor Sad Iron,

FIRE IRON STANDS, &C.

The Reflector Is the best and Cleanest Grate in existence. It consumes less fuel and produces more heat than any other. We challenge a trial.

The Iron Hearth Will be found more desirable and cheaper than either Marble or Brick.

THE GREAT REPUTATION OF THE

Anchor Sad Iron Has induced unprincipled parties to adopt our style with the intention of deceiving the public. We caution our customers and the public generally against this fraud.

Our Irons are all PLANED and bear the ANCHOR (our Trade Mark) on the upper side.

Samples of the Grates may be seen at BARNES', corner Third avenue and Market street, GOODWIN'S, 65 Federal street, Allegheny, or at the

NOTICE.

REDEMPTION OF 5-20 Bonds of 1862.

TREASURY DEPARTMENT, September 1, 1871.

By virtue of the authority given by an Act of Congress approved July 14, 1870, entitled 'An Act to authorize the refunding of the national debt, I hereby give notice that the principal and accrued interest of the bonds herein-below designated, known as Five-twenty Bonds, will be paid at the Treasury of the United States, in the City of Washington, on or after the first day of December next, and that the interest on said bonds will cease on that day. That is to say, Coupon Bonds known as the first series, Act of February 25, 1862, dated May 1, 1862, numbered as follows:

1 to 30699, inclusive, of $50 each.
1 to 43572, inclusive, of $100 each.
1 to 40011, inclusive, of $500 each.
1 to 74104, inclusive, of $1000 each.

And Registered Bonds of the same Act—

1 to 595, inclusive, of $50 each.
1 to 4103, inclusive, of $100 each.
1 to 1899, inclusive, of $500 each.
1 to 8906, inclusive, of $1000 each.
1 to 2665, inclusive, of $5000 each.
1 to 2906, inclusive, of $10000 each.

The amount outstanding (embraced in the numbers as above) is one hundred million ($100,000,000) dollars.

Coupon Bonds of the Act of February 25, 1862, were issued in four distinct series. Bonds of the first series (embracing those described above) do not bear the series designation upon them, while those of the second, third and fourth series are distinctly marked on the face of the bonds.

United States securities forwarded for redemption should be addressed to the "LOAN DIVISION," Secretary's Office.

J. F. HARTLEY,

ACTING SECRETARY.

LOUISVILLE CEMENT.

The Best--The Cheapest.

The Cement has acquired the reputation as the first in the country in hydraulic strength and uniform reliability.

It is now in general use from the lakes to the Gulf, most of the public works in the West and South being constructed with it.

The mills at Louisville having been enlarged and improved, can supply any demand, and though the Cement has always, for 30 years brought higher prices than competing brands, it is from this time the determination of the manufacturers, in order to largely increase the sale and extend the use of their Cement, to furnish it in the principal markets at prices which make it the most available and economical for all classes of work.

The large capacity of this Cement for taking sand renders it much the cheapest that can be used for buildings of any kind.

At the reduced prices in Pittsburgh its cost is not much above common lime, which makes it unquestionably to the interest of owners and builders that the foundation of every good house should be laid in this Cement.

A large stock of fresh Cement has just been received by barges from Louisville, and is offered at greatly reduced prices by the following dealers:

LAING & McKALLIP, 347 Liberty street.

DR. WHITTIER

296 PENN STREET, PITTSBURGH, PA.

A regular Graduate of Medicine, as his Diploma at office shows, has been longer engaged in the treatment of Venereal, Sexual and Private Diseases than any other Physician in Pittsburgh.

Syphilis, Stricture, Orchitis, all forms of Hernia and Rupture, all Urinary Diseases and Syphilitic or Mercurial affections of the Throat, Skin or Bones are treated with unparalleled success.

Spermatorrhœa, Sexual Debility and Impotency, the result of self abuse in youth, sexual excesses in matured years, or other causes, which produce some of the following effects, viz.: Nervousness, debility, blotches, dizziness, dimness of sight, confusion of ideas, evil forebodings, aversion to society, loss of memory and sexual power, rendering marriage improper and life miserable, are permanently cured. Sealed pamphlet relating to the above sent for two stamps. Correspondence confidential; consultation free. It is self-evident that a Physician who treats thousands of cases every year must acquire great skill. Many physicians knowing this, recommend patients to his care. Medicines sent everywhere.

Office Hours, 9 A. M. to 9 P. M. Sundays, 1 to 3 P. M.

MANHOOD! WOMANHOOD!

"Books for the million!" Who may marry, who not. Why! Impediments, causes and cure. Every father, mother, young man and young woman should read them. 100 pages. Sent in SEALED ENVELOPE; 15 cents each; both for 25 cents. Address, Dr. WHITTIER, 296 Penn street, Pittsburgh, Pa.

Finance and Trade.

NEW YORK, October 7, 1871.

Gold has been very firm at 114⅞@115, on purchases by foreign bankers. Loans were made at from 1-32 for use to 3-64 per cent. for carrying. Clearances 73,000,000. Exports to-day, $138,452; for the week, $550,000. Governments strong, in sympathy with gold, but transactions small. All classes of securities are lower in London. The new 5 per cent. United States bonds fell this morning to 2¾ discount against 2 per cent. yesterday afternoon. The effect here has been to advance the rates of sterling exchange to 109 for sixty days' bills, and 110 for short sight. It is said here that foreign bankers are trying to depress the prices of the new five per cent. loans, because they were not instrumental in placing it upon the market, but it is probable they will fail, for large orders for the purchase of these securities in London, at the discount they are now being offered at there, have been sent forward by cable for western banks. The Syndicate here report that they have sold to banks all those allotted on this side. Stocks opened steady. Business throughout the day was unusually limited, and in many shares transactions were not sufficient to establish quotations. Late in the day Lake Shore and Northwestern were firm; Reading steady—brokers all complaining of the dullness of the market. This afternoon the Stock Exchange was almost deserted, the Jerome Park races having drawn away a large number of regular attendants. The market closed dull, with a slight recovery from the lowest point of the day.

The Bank Statement is unfavorable. The following are the changes:

Loans, decrease	$3,199,900
Deposits, decrease	5,554,900
Specie, decrease	2,854,200
Legal Tender, decrease	676,200
Circulation, increase	6,300

Money easy at 5@7 per cent. There have been considerable shipments of greenbacks to the south during the week. State bonds neglected; Tennessee dull and lower.

Sterling Exchange, 109.

PITTSBURGH MARKET.

OFFICE OF THE PITTSBURGH GAZETTE, SATURDAY, October 7, 1871.

ASHES—Common Soda ash, 4 cts; refined do, 4⅛@4¼; Pearls, 9¼; Pots, 7½; Nitrate soda, 4⅛@4⅜.

BEESWAX—Quoted at 30@33c.

BUTTER—Continues dull with a supply especially of the common and medium grades, largely in excess of the demand; prime to choice roll, 20@21.

BEANS—Prime Navy quoted at $2,00@2,25 per bushel.

BROOM CORN—Is quoted steady at 5@7 cts.

CIDER—Good to prime sweet, quoted at $6@8 per bbl.

CANNED FRUITS—Trade is reported fair but the market in a general way presents nothing new or important.

CHESTNUTS—The receipts continue large, and the market is dull and prices are steadily declining; we now quote at $4,50@5,00 per bushel.

CHEESE—The recent advance is still maintained, but the market is less excited, and the demand is less active. We continue to quote at 15½@16 for prime New York Goshen; 14½@15¼ for Ohio Goshen; 14@14½ for Factory, and 13@13½ for Dairy.

CRANBERRIES—Sales of Jersey cultivated at 10@11 per bbl. Sackett's Belle Berries, $17,00.

CARBON OIL—Standard brand in car load lots, may be quoted at 23 cts, though some refiners allege that it cannot be made for that figure taking the present price of cruders a basis.

COUNTRY MEAT—There is rather more inquiry, and the stock in this market is very light. Country Lard unchanged at 8½@9.

CORN MEAL—Is very quiet and the demand is mainly of a retail character; may be quoted in small lots at 85@90 cts per bushel.

CEMENT—Louisville, $2,50@3,00 per bbl. Rosendale, $4,00@4,50; Calcined Plaster, $4,25@4,50.

DRIED FRUITS—Peaches steady at 9½@10 cts for prime halves. Quarters, dull, 7@8 cts. Market is bare of Apples. Blackberries, 13@14 cts.

EGGS—The receipts continues meagre and with an improved demand, the market is strong and prices tending upward; we now quote fresh, at 27@28—we are cognizant of sales having been made at 28.

FRUITS—Apples are in good supply and the receipts continue liberal, but with a steady demand, prices are still maintained, $2,50@3,00 per bbl for good to prime and $3,25@3,50 for choice. Quinces still reported steady at $5@7 per bbl according to quality and condition. Grapes unchanged, 5@6 cts.

FLOUR—Quiet and unchanged—the excitement which prevailed a few days ago has pretty well susided, and the feeling in regard to higher prices seems to be losing ground. We continue to quote good spring extras at $7; choice Minnesota baker's flour, $7,50@7,75, and good to choice red winter wheat, $7,00@7,25.

GRAIN—The grain markets, in a general way, present nothing that is particularly new or important, excepting that the feeling is scarcely so strong. Spot Wheat continues scarce and in demand at full prices, $1,43@1,45 for red, and $1,48@1,50 for white; for future delivery, however, it is doubtful whether these quotations could be realized for any considerable amounts, as the millers are a little "bearish" in regard to the future of the market. Oats, steady with a continued good home trade, and while the market is generally reported firmer, there is no quotable change in prices; mixed, 43@44; prime white 45@46. The receipts during the past week have been comparatively light, and in consequence, holders are indifferent sellers at quotations. Corn continues scarce and in demand, especially for immediate delivery, and prices are firm but unchanged; shelled, 7—small sales of ear at 72@73. Rye is still reported firm at 88@90, though the supply seems to be pretty well up to the demand. No. 1 spring Barley is still quoted at 81@85. We learn that the crop of Fall Barley in Washington County (this State) is above the average, both in regard to quality and quantity, but the farmers generally are not willing to sell at the prices, and the most of them are disposed to hold, in anticipation of a better market; 90 cts is about all that can be realized for it in this market as yet.

GROCERIES—The market here is reported fairly active, though it might be a good deal better. Coffees continue very strong, under the influence of small stocks, and a still further advance is not improbable. In the present condition of affairs the importers have it pretty much their own way—fix their own prices, and, if buyers are not satisfied, they can let the goods alone. Sugars continue dull and weak, though there is no further decline. Molasses, as noted in our last report, very dull, with a strong pressure to sell all over the country, and, this being the case, the demand is light, and the market very dull. Standard Syrups are firm at the recent advance; common grades dull.

SUGARS—Refined—Standard Hards, 13¾; A, 13; B, 12¾; Ex. C, 12½; C. Yellow, 12⅛. Porto Rico Sugars—Choice, 11¾; Prime, 11; Good, 10¾. Cuba Sugars, 10¼@11. Demarara, 12¾@12¾. Sugar House Sugars—Knight's Extra C. Yellow, 11¾; C. C. 11½; other grades, 9@11. New Orleans Sugars—None in market.

COFFEE—Fancy Rio, 22; Prime, 21; Good, 19; Fair, 19@19½. Java, 25@28. Laguayra, 19@20. Mocha, 45. Roasted Coffee, pure, 23@24. Lower grades, 20@21.

SYRUPS—Havemyer & Elder's, 72. White Honey, 70. Lovering's, 60. Durant's, 79. Brune's, 70; other grades, 48@60. New Orleans Molasses, 60@68.

RICE—Choice Carolina, 9½; Good, 9½; Fair, 8¾. Rangoon, 8@8¼. Patna, 8.

SPICES—Pepper, 22. Allspice, 18. Cassia, 50. Cloves, 20. Nutmegs, $1,30.

HONEY—Steady at 25@30 cts per lb.

HIDES—Green Salted, 10½@11½; Green Butcher's, 8; Dry Flint, 21@22; Green Calf Skins, 14@15; Green Salted Calf, 17@18.

HUSKS—Quoted at 2½@2¾ cts.

HEMP—Quoted at $165 per ton.

HAY—Is steady but unchange; regular sales of good to prime baled at $24@25 per ton.

LIME—Perrysburg white, $2,00@2,25 per bbl; Cleveland $2,25; Eastern, $1,75.

MILL FEED—Is quoted in a jobbing way, at $22@23 per ton for Bran; $24@26 for Seconds; $31@36 for Middlings, and $44@45 for Oil Meal.

ONIONS—Quiet and unchanged; $3,00@3,50 per bbl.

OIL—Lard Oil is firmer and higher, but the market at present is so irregular that it is very difficult to quote correctly.

POTATOES—Sales of Irish, at 65@70 cts per bushel. Sweets dull but unchanged; $2,50@3,00 per bbl, for Baltimore's, and $3,25@3,50 for Jerseys.

POULTRY—The receipts of live Chickens continues liberal, but prices are no lower, 45@50 cts per pair, by the coop.

PROVISIONS—Plain shoulders, 7¾@7⅞; ribbed sides, 8@8¾; short ribbed sides, 8⅛@8¾; clear sides, 9@9⅛; sugar cured shoulders, 10@10¼; Breakfast Bacon, 11@11¼; sugar cured Hams, 16@17. Prime kettle Lard, in tcs, 10@10¼. Canvassed Dried Beef, 18@18¼. Mess Pork, $14@14¼.

PEA NUTS—Steady at 13@13 cts.

RAGS—Sales, 4@4¼ cts per lb.

SALT—Is quoted at $1,85, by the car load, and $2 in small lots.

SEEDS—Timothy Seed is dull and nominal at $3,00@3,25. Clover Seed, quiet and nominal at $6,75@7,00. Flaxseed unchanged at $1,80@1,85.

SUMAC—Sales Tennessee Sumac at 4½ cts.

WILLOWS—Quoted firm at 10 cts.

PETROLEUM MARKET.

OFFICE OF THE PITTSBURGH GAZETTE, SATURDAY October 7, 1871.

The oil trade continues dull and there is but little prospect of any immediate improvement. Refined has been stronger during the past week, but closes very quiet; advices from Philadelphia and New York indicate weakness, with but little inquiry either for spot or futures. The charters during the week have been comparatively small, but this was owing doubtless to the scarcity of vessels and the high rates of ocean freights. Crude was reported easier and a shade lower.

There is still considerable complaint about the difficulty experienced in getting cars, and during the past two or three months some of our refiners have been unable to get their oil forward in time to make deliveries, and have been obliged to buy or borrow oil in order to meet their contracts. This difficulty still exists; it is hoped, however, that the railroad authorities will soon be able to remedy the matter, and the sooner it is done the better.

Receipts crude this week, 31,732; last week, 26,332; January 1st to date, 893,270 same time last year, 834,877. Exports refined this week, 17,167; last week, 9,359; January 1st to date, 550,270 same time last year, 582,434.

CRUDE.

As already noted, crude was easier to-day; sale 1 000 bbls at Parker, at $4,65, and more offered at the same figure without finding buyers.

REFINED.

Refined, as compared with yesterday, is without quotable change. October, 24⅛; November, 24⅛; December, 24¼. No sales.

OIL BARRELS.

Oil barrels firmer and more active; city make, on spot, $1,75; country make, $1,65. We can report alone of 12,000—2,000 each month November to April, at $1,60.

PITTSBURGH CATTLE MARKET.

OFFICE OF THE PITTSBURGH GAZETTE, SATURDAY, October 7, 1871.

RECEIPTS STOCK.

The receipts of stock at the Central Yards for the week ending to-day, were as follows:

	This week.	Last week.
Cattle	430 cars.	480 cars.
Hogs	390 "	262 "
Sheep	85 "	100 "
Horses	17 "	30 "
Mules	6 "	2 "
Total	928 "	814 "

CATTLE.

The operations in Cattle were comparatively light, the sales in the aggregate having been unusually small, and the market has been very sluggish all week; it is true, as will be seen, the receipts as compared with last week, show a falling off of 50 cars, but there was also a very perceptible falling in the demand, and prices if anything ruled lower, particularly for the common grades, of which the offerings largely consisted. The eastern markets have been so exceedingly hard of late, that eastern buyers, upon whom we are mainly depending for business, have become very much discouraged, and, many of them are disposed to hold off for a time, in hopes that trade will improve; we could name some of these eastern men who, although here, did not buy anything; while others did not take one half the number they usually bought. The Philadelphia men thought that the cattle they bought here last week were cheap, but we understood that the most if not all of them lost money, and the consequence is they are very shaky and are afraid in the present state of affairs, to operate to any extent.

Prime 1,300 to 1,400 lb steers, fat and smooth may be quoted at 5@5¼; good 1,100 to 1,200 lb averages, 4⅜@4⅝. Texans, averaging 860 to 1,300, 2¾@3½; stock steers, 3¼@4⅛.

We understand that one drove of fancy Southern Ohio steers averaging 1,600 lbs, changed hands at about 6¾ cts—a fancy price. Sold by Aaron Moore to Roddy Maynes.

SHEEP.

The receipts of Sheep were smaller than last week, and the average quality very common; the market has ruled slow, particularly for the lower grades, and the supply of all grades was in excess of the demand. We reduce our quotations ¼c on good and ½c on common sheep, the market closing dull. Prime 95 to 100 lb fine wool sheep, 5@5¼; fair to good 85 to 90 lb averages, 4½@4¾. One drove of fancy brought 5.65, but this is now an outside price, and, therefore, considerably above the market, except for something of a fancy character. Following is a detailed report of the sales since Wednesday:

HOGS.

The receipts, as will be seen, were the largest of the season, footing up 390 cars; and, with this largely increased supply and no corresponding increase in the demand, the market has ruled heavy all week, and prices have dropped, and that, too, right sharply, say from ⅜ to ½ of a cent per pound. This day week, York hogs sold at 4¾@5; to-day, the same grade were only worth 4¼@4½; at the same time, Philadelphia hogs sold at 5,15@5,20; to-day, they cannot be quoted above 4,70@4.80. The offerings, as a general thing, were of the common grades. It is worthy of note that at present hogs are relatively cheaper here than at Chicago, and, it follows, therefore, that this is the best point for eastern buyers, and they are beginning to find this out.

Michigan Apple Crop.

The apple crop is coming to market very rapidly. At Buchanan 3,500 bbls have been shipped, and buyers are now paying $1,50@1,85 for the fruit to fill a bbl. At Niles, 7,200 bbls have been shipped, and they are now shipping 600 bbls per day, and paying $1,75@1,90 per bbl, shippers furnishing bbls. At Dowagiac, the amount shipped and those on the depot grounds ready for shipments 8,950 bbls; buyers are paying $1,80@2,15 for the fruit and 50 cents for the bbls. At Decatur, 6,475 bbls have been shipped, and 2,500 bbls are ready and waiting for cars to ship in; $1 90@2,15 is paid for fruit to fill a bbl. Very large contracts have been made, and the fruit is being delivered at the rate of 1,000 to 1,500 bbls per day. Other fruit towns have shipped from 3,000 to 7,000 bbls, and are paying $1,75@2,15 per bbl for winter apples.—*Detroit Free Press.*

RIVER NEWS.

The river has undergone little or no change at this point for several days. Weather clear and cool, with but little prospect of rain or water.

—A late Evansville paper has the following: Captain J. H. Porter, of the Greenback, having completed his contract with the city in removing the wrecks of the Norman and Pine Bluff, gave a social little supper to a few friends last night at the Grant House. It was a regular feast of reason and flow of soul, interspersed with Heidsick and California Hock, "comparatively speaking." Captain Porter will remain a day or two longer with us, settling up his affairs. During his sojourn here he has made many warm friends who will cherish his memory.

—The Steamboatmen's Committee on Correspondence have received letters from Louisville, Pittsburgh and St. Louis, all expressing their approbation of the action of Cincinnati steamboatmen in regard to the new law, and promising their heartiest support. Captain R. C. Gray writes that the committee from Pittsburgh will leave Monday for Washington. Mr. C. B. Levy, writing from Louisville, says Captain R. H. Wolfolk has been telegraphed to meet our committee in Washington. From St. Louis, a letter written day before yesterday says: "You will find at Washington Mr. Bryson, Captain W. Gould, and Captain J. N. Bofinger, from this city, who will doubtless be glad to co-operate on all questions for the general good."—*Cincinnati Commercial.*

—The Madison *Courier* says: Capt. Barnes' sea-going barge was lauched to-day. Capt. Horne's new Red river boat is nearly completed, and will be ready to leave on the first rise in the water. Capt. Stafford's new boat, the John Scott, has made her trial trip and performed satisfactorily. Capt. Hegler's new steamer, to be called the Kitty Hegler, will be finished in a few days and ready to take her place in the Kanawha trade. The frame Capt. Kinney's new boat, the Joe Kinney, is now up, and it will be one of the largest and finest boats of the day.

—We clip the following items from the Sioux City *Journal*, of Oct. 1st: The Silver Lake is receiving her cargo for Buford on yesterday. The Silver Lake is undergoing many needed repairs since her change of owners. For one thing, her cabin is being remodeled by cutting away all that portion running from her midship back to the laundry, about thirty feet. Capt. Fenn Hawley, of the steamer Miner, arrived here from Omaha on yesterday, in company with Capt. S. B. Coulson, of the Far West. He informs us that the Miner left Omaha on Thursday morning for this city, and will again leave for the Yankton trade.

—We take the following from the proceedings of the Evansville City Council: Wharfmaster Greek reported the collection of $221.25 for two week. A petition from Capt. L. F. Elder, master of the steamer Ruby, asking an abatement of the wharfage tariff, was read. Mr. Van Riper explained that the steamer was owned in the city. Mr. Klein, of the committee on wrecking, reported having agreed with Capt. Porter, of the Greenback, for the removal of the remainder of the wrecks in the river for $700.

—The St. Paul Pioneer has the following concerning the upper Mississippi: The river has almost reached the low water mark of 1864, while the condition of the bars is far worse, being flat and troublesome to cut a channel through. Steamboat men are discouraged, and they tell us the boats now running are all losing money. There is less than twenty inches on Mendota bar, and only about thirty inches on Willow river bar on the St. Croix.

—A private telegram received Tuesday from Jacksonport, Ark., announces the loss by sinking of the steamer Ella Hecht, a small vessel plying in the Black river trade, between Jacksonport and Pocahontas. The boat belonged to Levi Hecht, a merchant of the latter place, and was not insured.

—The Cincinnati *Commercial* says: Only two spans of the Newport Bridge remain to be finished. A photographic view of the structure, from the Newport side, was taken Saturday. Capt. E. G. Shinkle attends sending a copy to the Pittsburgh Pilots' Association.

—Captain Lee Howell, of the Dick Johnson, was the first master licensed by the Local Inspectors of Evansville under the new steamboat law. Not having been furnished with blanks, the Inspector wrote them out in full.

—A passenger on the Indiana, named Hugh McSweeney, died on that steamer on her way down the Mississippi, and was burried, on the 26th ult., on the left bank of the river, thirty miles above New Orleans.

—The Vicksburg *Times* says that the City Council of that city, at a meeting Thursday night last, reduced the wharfage of the wharfboats at their landing to $1,000 per year, payable monthly it being heretofore $1,600.

—Capt. Barnes' new Galveston and Houston steamer, Charles Fowler, was launched at New Albany on Thursday.

—The Summer Koon was sold Wednesday at Evansville, by the United States marshall, for $570.

—Captain James Gormly, of St. Louis, is visiting his old home at Brownsville Pennsylvania.

—The mail from Wheeling to Marietta has lately been transported in skiffs.

STEAM PUMPS. John M. Cooper, No. 883 PENN STREET, jy12

TO THE Voters of Allegheny County.

In the interest of the highest good of our community, we take the liberty to address you. Official corruption has been confined to no one locality, nor to any one political party. In Allegheny County it has resulted in the condign punishment of two prominent men, who confessed their guilt. But the contamination is widespread, and if the evil is to be stayed, it must be by the settled determination of the people to allow none but efficient, faithful men in positions of trust. The two vacancies referred to above have been filled for the time by upright men, to the great joy of the community. Shall they be so filled permanently? This is a vital question—vital to the interests of every taxpayer and voter in this county. We want men of unquestioned honor, and of fearless independence of character. Do our party nominations present such?

The Liquor Interest has made up its ticket for Commissioners, by selecting from the Democratic ticket, Mr. Stuckrath, and from the Republican ticket, Mr. McJunkin. This movement on their part suggests our course of action, viz: to make every effort to elect men of known integrity, and established character. Mr. Dilworth is a man, proven by past and present service. Mr. Birmingham is in hearty sympathy with him. Neither one is bent upon an indiscriminate refusal of license, or upon any opposition to the wishes of the people. But both are earnest in demanding and pledging themselves to a fair and impartial enforcement of all the laws which they have to administer. Will it not be well for us to forget party lines in this local matter? Shall we let slip this golden opportunity to rebuke every office-holder among us who has soured his trust? Will you not give personal influence now, to record the condemnation of this county against the taking of bribes, and corruption in high places? We present you these two names. By earnest personal effort we can secure their election. If we fail, we trust it will not be because of the lack of vigorous effort on your part.

Respectfully, your fellow citizens.

SPECIAL NOTICES.

$1,000 FORFEIT—NO SUGAR OF LEAD.—We pledge ourselves to the public, and give them the most solemn assurances, under a penalty of one thousand dollars, that the "LONDON HAIR COLOR RESTORER" does not contain a particle of Sugar of Lead, or injurious drugs in any form whatever, and that it is an innocent preparation, incapable of doing the least injury. WM. P. SWAYNE. (Dr. Swayne & Son.)
Affirmed and subscribed before me, this seventh day of July, A. D. 1871. PETER HAY, Alderman, Twelfth ward, Philadelphia.
WHY "LONDON HAIR COLOR RESTORER" IS SO HIGHLY ESTEEMED AND UNIVERSALLY USED.
BECAUSE—It never fails to restore gray or faded hair to its original youthful color, softness and beauty.
BECAUSE—It will positively stop the hair from falling, and cause it to grow on bald heads in all cases where the follicles are left.
BECAUSE—It will restore the natural secretions, remove all dandruff, itching, and cures all diseases of the scalp.
BECAUSE—It will do all that is promised, never failing to preserve the original color of the hair to old age.
BECAUSE—It is warranted to contain no mineral substance, and easily applied as water, not staining the skin a particle or soiling anything.
BECAUSE—It has become a staple article, and no Toilet is complete without it, and every leading Druggist and dealer in toilet articles sells it.
Price, 75 cents a bottle. Dr. SWAYNE & SON, Philadelphia, Sole Agents for the United States. Sold in Pittsburgh by McCLARRAN & McKENNAN, 85 Market street and opposite P. O., and all Druggists and dealers everywhere. se8 MWF

JOB MOSES' SIR JAMES CLARKE'S FEMALE PILLS.—These invaluable Pills are unfailing in the cure of all those painful and dangerous diseases to which the female constitution is subject. They moderate all excesses and remove all obstructions from whatever cause, and although very powerful, contain nothing hurtful to the constitution. In all cases of Nervous and Spinal Affections, Pains in the Back and Limbs, Fatigue on slight exertion, Palpitation of the Heart, Hysterics and Whites, they will effect a cure when all other means have failed. The circulars around each package give full directions and advice, or will be sent free to all writing for them, sealed from observation.
SPECIAL NOTICE.—*It is the fate of every valuable medicine to be COUNTERFEITED. Job Moses' Sir James Clarke's Female Pills are extensively COUNTERFEITED. The genuine have the name of "JOB MOSES" on each package. All others are worthless. Dishonest Druggists endeavor to sell the counterfeits to make greater profits.*
N. B.—In all cases where the GENUINE cannot be obtained, One Dollar enclosed to the Sole Proprietor, JOB MOSES, 18 Cortland street, New York, will insure a bottle of the genuine, containing Fifty Pills, by return mail, *securely sealed* from any knowledge of its contents. 1y3:v17:d&T

HOME NEWS.

Duff's College.—Evening classes now open.

A Window Smasher.—Deputy Mayor Nichols yesterday committed B. Warbeck thirty days to the Workhouse for breaking windows in houses on Butler street.

Boy Wanted—To make himself generally useful in the composing room. One with some experience about a printing office preferred. Make application during this afternoon.

Stole a Coat.—John Connolly was up before Mayor Callow Saturday morning, on a charge of stealing a coat from the livery stable of Mr. Alf Graebing on West street. John was caught in the act and hence had no defence. In default of bail he was sent to jail for trial.

Disorderly Joyce.—Thomas Joyce, who recently served a term at the Work House for disorderly conduct, was yesterday arrested on Second avenue, by Officer Fred. Miller, who saw Joyce in the act of tearing a shawl from a lady's back. Thomas will probably be returned to Claremont.

For the Workhouse.—Last evening the notorious Mrs. Brawdy was brought to the lock-up to be kept all night, and this morning she will be taken to the Workhouse. It seems the old woman cut up some capers in East Birmingham, and Burgess Jones of that borough gave her ninety days.

Buggy Accident.—Yesterday afternoon, while Mr. W. H. Devine was passing the corner of Washington and Wylie streets, in a buggy, one of the front wheels came off, and the vehicle going down suddenly, Mr. Devine was precipitated over the dash-board to the ground, spraining his arm slightly.

Breaking Windows.—Yesterday afternoon three boys named Thomas Feeney, David McGovern and John Sullivan were arrested by Officer Brown, on a charge of disorderly conduct, the graceless youths having been engaged in throwing stones through a window at the corner of Duquesne Way and Fifth street. They were locked up for a hearing.

"Pigeon Pop."—Another shooting match came off on Friday afternoon at East Liberty, between Messrs. James D. Ulery and John Weaver which again resulted in favor of Ulery by a close score as follows:

Ulery—1 1 1 1 1 1 1 1 0 1 1 1 1 1 0—13
Weaver—1 1 1 0 1 1 1 1 1 0 1 1 0 1 1—12

The "rise" was 21 yards and the "boundary" 80 yards. The match was well contested and attracted considerable attention from the sportsmen about East Liberty.

Now, when the summer is gone and the long winter evenings are coming, is the time to secure good reading matter and plenty of it. To our German reading friends we recommend a visit to the store of J. G. Backofen & Son, who have just sent us exquisite specimen numbers of "*Ueber Land und Meer*," "*Daheim*," "*Die Illustrirte Welt*," and "*Blaetter fur den Haeuslichen Kreis*," all filled with reading matter from the leading German authors and teeming with exquisite engravings.

Too Much Married.—Yesterday morning, Anton Schilling, a shoemaker residing in Pittsburgh, appeared at Mayor Callow's office and made an information, charging his wife Louisa with bigamy. Some years since the Schillings parted, since which time it is alleged that the accused has been living with a man named Hamilton, and further, that a short time since, the parties were married by Alderman Mullen. A warrant was issued and the accused arrested at Hamilton's residence on Spring Hill. She was held in $2,000 bail for a hearing.

A Direful Threat.—Four or five weeks since, acting Deputy Mayor Irwin, of Allegheny, committed a female named Ellen Johns, to the Workhouse, for being drunk and disorderly. She was released and returned to her home on Saturday. It seems that she had a conversation with her brother, who persuaded her that the Mayor had no right to imprison her, and so she repaired to Mayor Callow's office yesterday morning and interviewed that official. She informed him that if she was ever sent up again, she would burn down the city buildings, and also, that her big brother would hurt somebody. His Honor showed her the door, and notified Chief Clark to arrest her if she ever made her appearance in that locality again.

Horse and Buggy Stolen.

On last Thursday, a man giving his name as Peter Baker, hired a horse and buggy from a liveryman in Allegheny, named Alexander Wilson. Baker stated that he would be absent only about two hours. The day passed, however, without his return, and so did Friday. Mr. Wilson, although somewhat anxious, thought the fellow would return and did not make any information until Saturday evening, when, Baker and the property still being missing, he made an information before Mayor Callow charging the fellow with larceny as bailee. A warrant was issued for his arrest. Mr. Wilson values his horse at $400, the buggy at $150 and the harness at $20, so that the loss is by no means a trifling one.

Godiva on Foot.

Yesterday afternoon, a poor woman, who has lost her husband and several children recently from the small-pox, and has become crazed from her troubles, started from her house, on First alley, in the Third ward, Allegheny, and paraded the streets for several squares without an article of clothing on her person. She then started to return, when a lady on Chestnut street caught hold of her and took her into her residence, and, putting some clothes about her, conducted her to her own home, where she was persuaded to dress herself, after which she, of her own accord, went to the Mayor's office and was there placed in the lock-up. She will probably be removed to Dixmont. We were unable to learn her name.

A Brave Act.

Friday morning last as the day express north on the A. V. R. R., was approaching Kittanning, the engineer of the train, John McGinnis, discovered a child on the track a short distance ahead of the train; the air-brake was applied and the engine instantly reversed, but all efforts to prevent killing the little one would have been in vain had it not been for the courage and daring of the fireman, John Byers, who, seeing the danger, ran out and stood on the pilot of the engine until it was near the child and then made a spring, caught the child in his arms and rolled off the track with it, just in time to prevent its being crushed to death by the approaching train. To the air-brake, the coolness of the engineer and the heroic daring of the brave Jno. Byers, the parents of the little one may be thankful for the preservation of the life of their child.

Meeting in the Sixth Ward Allegheny.

On Saturday evening a large and enthusiastic Republican meeting was held at the corner of Locust street and Beaver avenue, Sixth ward Allegheny. Mr. S. A. Johnson was called to preside, with a number of Vice Presidents, and secretaries. Mr. Neeb editor of the *Freiheit's Freund*, German newspaper, addressed the meeting in a highly entertaining manner, reviewing the different issues, State and local, and was followed by Hon. T. J. Bigham in a telling speech. The A. P. Callow band discoursed some of the sweetest music we ever heard. Altogether the meeting was a decided success and proves that the Republicans of the Fifth and Sixth wards of our sister city are fully alive to the duties of the hour. They will poll a full vote to-morrow for the straight ticket. Allegheny is always to be relied upon.

Destructive Conflagration.

Our readers who reside within earshot of the Central Alarm Bell will not be prepared to learn that there was a very destructive fire within the city limits yesterday afternoon, but such is the case. Between four and five o'clock flames were seen issuing from the elegant frame residence of Mrs. Emma Herron, Camp street, Minersville. As there is no alarm station in this neighborhood and no water facilities, to sound an alarm was useless, and to a great extent impracticable, hence, the department were not on the ground at all. The greatest exertions were made to save the building, but without avail and by seven o'clock it was in ashes. The greater part of the costly furniture which the building contained was saved although some of it was destroyed. The loss is estimated at $4,500 on which there is an insurance of $3,000.

A "Peeping Tom" Detected.

For some time past some person possessing more inquisitiveness than caution, has been in the habit of going under the grating in front of a large business house on Fifth avenue for a purpose that was mean and contemptible. The fellow has been seen there on several occasion by ladies passing that way, and information of this fact having been placed in possession of the police, a watch has been kept on the premises. Yesterday afternoon, about three o'clock, officer Mackrell, who was on duty in the vicinity of the grating under which the "peeper" had been in the habit of taking up a position, discovered a well dressed individual entering the basement of the building. After the fellow had disappeared from view the officer approached the grating, and after a few minutes he saw the man taking his stand on a large lump of coal immediately under the grating. "Peeping Tom" turned his eyes heavenward, saw the officer, and at once beat a hasty retreat. Officer Mackrell called assistance and effected the capture of his man, who was taken to the Central Station House. Here he gave the name of Israel Benson, under which cognomen he was duly registered and provided with lodgings. The fellow sported a fine watch and had twenty-seven dollars in his pocket. His case will be heard this morning.

Pittsburgh and St. Louis Iron Improvement Co.

This is a new company now forming, for the purpose of erecting an experimental furnace to test the invention of Mr. John A. Stearns, designed to greatly economise the expense of manufacturing iron and steel by a simple and inexpensive process by which familiar natural laws are illustrated.

Several practical gentlemen of St. Louis and Pittsburgh who have investigated Mr. Stearns principles and plans and witnessed a number of partial experiments attest their entire confidence in Mr. Stearns and in his invention by organizing themselves into a company under the above name. The amount of money required to erect a furnace large enough to make a demonstrative test is only about $5,000—the shares are put at only $10 each, a sum that any one interested in such a subject may well afford to lose, (and it is all he can lose, on the plan of the company) for an experiment so important and which if successful must prove exceedingly profitable to all concerned, inasmuch as the company making the test will become owners of the patent in virtue of the contributions now made. Who among us would not freely expend $10, even if no other equivalent was promised than to divest the city of its chief reproach, the smoke nuisance?

At a Stockholders meeting held on Friday evening, a constitution, form of charter and by-laws were adopted and the following officers elected:

President—Jno. Daker.
Vice President—W. H. Cassiday.
Secretary—C. A. Burrows.
Solicitor—H. O. Bowers.
General Manager—John A. Stearns.
Directors—Wm. Brown, James Collins, Henry Paddock, W. D. Rinehart, Elias Davis, Isaac Tann, John G. Mathews, John Boyd, J. B. Davis.

The Directors will meet at room No. 8 First National Bank building this evening to organize, when an opportunity will be afforded to all persons willing to share in the new project to take one or more shares of the stock. We commend the Company to the favorable consideration of all.

BREVITIES.

Councils to-day.

Here—Indian Summer.

Finished—The Trinity Church spire.

The Parks were crowded yesterday.

No music in the Park on Saturday night.

The Water Ordinance will be the main question at Councils to-day.

How about the citizen's vote on the High School question, in Allegheny?

Bells on the street car horses, could be dispensed with on the Sabbath day.

Great Western Band gives another concert in Allegheny park on Saturday night next.

There will be a meeting of the County Executive Committee at Lincoln Club rooms this afternoon.

Frank Case has done more work than any other two men on the Republican Executive Committee.

We are glad to see our friend, Capt. Reed, again on duty at the lock-up, after several days' illness.

Parker Robinson made another unsuccessful attempt at suicide at the Central Hotel on Friday night.

Persons with corns are advised to go to Cincinnati, where the streets are said to be filled with foot-pads.

Republicans of the Sixth, Seventh and Eighth wards will find notices addressed to them on our first page.

Brigham Young expresses himself as feeling "easy as an old shoe." He always was regarded as slippery customer.

James S. Fleming's store on Liberty street was entered by the rear on Saturday night, and robbed of eighteen dollars.

Dr. Jackson says the eight hundred names that Irvin has on his list who he says will vote for him to-morrow, belong to him.

The County Republican Executive Committee will meet to-day at 2½ P. M. Let there be a full attendance of all the members.

In the three-mile race, on the upper Monongahela course, Saturday, for $300, Albertson beat Dagnell, after a close contest, in 24:42.

The Young Men's Christian Association held forth yesterday to a large audience on the corner Fifth avenue and Market street.

Match game of base ball between the Lloyd & Black and Chris Graff nines on Saturday afternoon resulted in a victory for the former. Score 24 to 17.

A rumor current upon the streets last night to the effect that a woman had dropped dead at the St. Clair Hotel, proved, upon investigation, to be groundless.

A four oared and two oared boat, the property of Louther, were entirely demolished Friday night, by some one who broke into his boat house under the Railroad bridge.

Clerk Patterson, and a number of members of the Mayor's police force have raised quite a handsome sum of money for the benefit of the family of the late Officer Jones. A commendable action.

Benefit for the widow and children of the late Officer Isaac Jones, at the Fifth avenue Opera House, on Wednesday afternoon next. This is not Mr. Beamer's first act of disinterested benevolence.

The Seventh Ward Vigilance Committee, and all Republicans of the ward, are requested to meet at their school house this evening. It is desirable that there should be a strong representation on this occasion.

To-day the Union Cricket club, of this city, will play the return game with the Little Whale Cricket club, of Camden, on the grounds of the latter, at Camden, opposite McKeesport. An animated and spirited contest is looked for.

The races at the Oakland Park, commencing on the 24th inst., will be the best of the season. The trots between the "Goldsmith Maid" and "Lucy" will be the attractive features of the races, and will no doubt attract a host of spectators.

Wm. C. Gallagher, a well known citizen, died yesterday at Mercy Hospital. The deceased was an actor, who in his day was greatly admired, and the news of his death will be received with regret, not only by the profession, but by a large circle of friends.

At a meeting of J. Sharp McDonald lodge of Odd Fellows, No. 632, held at Sewickley, Friday evening, the following gentlemen were installed officers: N. G., P. F. Rohrbacker; V. G., R. N. Brockunier; Secretary, William Ague; Assistant Secretary, Charles W. Stumpf; Treasurer, William Beverland.

THE COURTS.

Saturday's Proceedings.

CRIMINAL COURT—JUDGE STERRET.

A number of surety and desertion cases were disposed of, when the court announced that no jury trials would take place until Wednesday morning.

J. Y. McLaughlin, charged with embezzling funds of the Insurance Company of which he was the agent, was admitted to bail in the sum of $10,000. His bondsmen are S. M. Kier and James Irwin.

In the matter of the application of Charles Boyle for a mandamus on Col. Browne, Clerk of the Court, directing him to issue a license to the said Boyle, the Court made the following order:

October 7th, 1871.—It having been subsequently decided by the Court that no appeal could be had in such cases, the above order is now vacated and annulled, upon the ground that the Court had no jurisdiction of the appeal on the above case. By the Court.

It will be remembered that an appeal had been taken, in the case of Boyle, from the action of the Board, and the Clerk accordingly refused to issue the license. After the appeal was dismissed, the Clerk still refused to issue the license, and because of the refusal, the writ was applied for. The license will now be issued.

Trial List for Wednesday.

ORPHANS' COURT—FULL BENCH.

An argument was heard on the petition of Mrs. Agnes E. Kennedy, asking the Court to direct the executors of the estate of the late Thomas S. Clark to pay over to her certain amounts claimed to be coming to her under the will of her father. Judge Woodward, George Shiras, Esq., and M. Woodward Esq., appeared in support of the motion, and Messrs. J. H. Hamilton and Clark for the executors. No decision has been announced.

COMMON PLEAS—FULL BENCH.

Henry Johnston, of Chartiers township applied for a writ of *mandamus* directed to J. Robinson and George Meredith, Supervisors of Roads in said township, commanding them to erect or cause to be erected, an approach to a bridge over Chartiers creek. An alternative mandamus was allowed and made returnable on Thursday next at ten o'clock in the morning.

POLICE NOTES.

Brief Mention of Criminalities.

Squire Barker, of Birmingham, Saturday sent John Ennis to jail for getting drunk and trying to jump into the river.

John Finn was cut on the arm Saturday night by a man named Rogers, at Fifth avenue and Union streets. The wound was slight and no arrests were made.

Ellen Grier Saturday made information before Alderman Smith of Allegheny, against Ellen Huber and her son George, charging the son with stoning prosecutor's children as they return from school.

A man named Frank Walls was arrested in Birmingham, Saturday for drunkenness and indecent exposure of person on the street. Superintendent Cordier will furnish him with employment at the workhouse for a couple of months.

Officer Stemmler, of the Birmingham police force, Saturday, arrested a man named Lawrence Kennedy for drunkenness and acting in a disorderly manner upon the street cars. 'Squire Barker gave him sixty days in Claremont.

Nine cases before Mayor Callow at yesterday morning's hearing.

Josephine Bassett was sent to the Workhouse for six months, on Saturday afternoon, by Mayor Callow, for vagrancy.

A man named William Wolf, driving along Sixth street last night, ran into a buggy in which were Messrs. Sands and Reineman, at the corner of Liberty street. These gentlemen had turned out to the edge of the street, giving Wolf plenty of room. Mr. Sands was thrown out and slightly injured, while their buggy was badly damaged. Wolf was arrested and taken to the lock-up, when he deposited $30 for a hearing to-day.

Pat Lailey and Wm. Butler got into a difficulty and came to blows on Sixth avenue. Officers Gowdy and Shallate arrested them and placed them in the lock-up. We hear that an information will be made to-day, charging Lailey with breaking windows up town.

The Weather Cock on Trinity Church.

Messrs. Editors: The beautiful crocketed stone spire of Trinity church has attracted much attention from passers by as it approached completion. The scaffolding is now removed and a vane in the form of a cock, with the four cardinal points of compass is exposed to view. There seems to be a general disappointment that the spire should not have been surmounted with the ever beautiful symbol of the Christian faith.

The cock, however, is not without significance in the Christian Church. During the middle ages it was used as an emblem of the crucifixion with others, such as crown of thorns, hammer, nails, spear, &c.

In later times it was emblematical of Christian vigilance, and during the Reformation was elevated to the top of steeples as a Protestant symbol, to designate such churches as protested against the errors of Rome and the authority of the Pope.

It is very common in England and Germany, and is frequently seen upon old churches in our own country in New England and New York.

It is told of "the rooster" on the old Episcopal church in Stratford, Conn., one hundred and fifty years ago, that when it was elevated to the top of the steeple, a man announced it was in place by clapping its sides, and crowing amidst cheers from the crowd below. In this old town are two weather cocks, (one being on the Congregational church) which are about one hundred and fifty years old, although the churches beneath them have yielded to time and weather, and have been replaced with new ones. We hope this cock of the new Trinity will always point to fair weather, and the beautiful steeple be a guide to many wanderers who seek the Lord in His Holy Temple.

Amusements.

Pittsburgh Opera House.—The amusement going public will be delighted to hear that the star for the present week will be Mr. Lawrence Barrett, who will open this evening in Wallack's great play of "Rosedale," Mr. Barrett appearing in his great specialty of *Elliot Grey*. The piece will be presented with new scenery and effects, and will exceed all former productions in its line, on the stage of this city.

Fifth Avenue Opera House.—The beautiful, talented and versatile Chapman Sisters, Blanche and Ella, will open an engagement this evening, supported by the great comedian, E. A. Locke. The opening piece will be the entirely new, and, as the eastern papers say, the intensely interesting drama of "True." The Chapman sisters cannot fail to draw.

Special Notice to Gentlemen.

COMMEMORATIVE.

Completion of the Beautiful Spire of the new Trinity Church—Complimentary Supper to The Workmen—An Evening of Pleasure.

The most attractive feature externally, of the imposing new Trinity Church is the symmetrically proportioned spire, which was completed a few days ago, and now, rising two hundred and sixteen feet in highth, of finely cut stone, and surmounted by its emblematical vane and indicator, forms one of the most observable, as it is one of the handsomest specimens of that style of architecture in the city. The work has been conducted with the greatest care, and as completed, gave so much satisfaction that the Building Committee concluded to tender the workmen a complimentary supper, in honor of its completion—one of the most difficult parts of the work on the building being thus finished. In pursuance of this design, arrangements were made by which men to the number of thirty-two were gathered at McGinley's on Smithfield street, Saturday evening, where a feast in abundance and elegance had been provided for their entertainment.

Where good humor and good cheer prevail, as was the case on this occasion, formality is rather at a discount, and thus appropriately it was dispensed with by the artizans, as they gathered around the festive board—previously, however, having selected Mr. Josiah King, the Junior Warden of the Church, to preside over the festivities.

With a cheerful unanimity, the company seemed to agree to employ the first half hour or so in the enjoyment of the viands before them, and then came the speeches. The chairman was first called upon, and in response made a brief address, during which he referred in the highest complimentary terms to the skill of the workmen, their sobriety and faithfulness while at work, the harmony which had prevailed and the result of it all—the beautiful monument to the excellence of their handicraft, which reflected the greatest credit alike upon designers and executors. This brought Mr. Reuben Bollman, one of the contractors, to his feet, and he spoke of the kindness which they had received and the encouragement given by the Building Committee, to whom in behalf of his firm and the men he returned sincerest thanks. He also cited as a singular fact that the stonework, which had been under the superintendence of his partner, Mr. Richard Glaister, had been so accurately designed and cut that when the pieces were placed in position there was not one to which a tool had to be applied in the way of alteration—a circumstance which he had never known to attend any work of that character in the country. Further, there had been no accidents, from the commencement of work on the church in May to the completion of the spire in October; the work had gone on harmoniously, and satisfaction seemed to have been given alike to employers and employes.

Mr. Reitter, on behalf of the men, reciprocated the fraternal feelings that had been expressed and said they had never been engaged in a job, during which they had been the recipients of kinder treatment, or one in which they had taken greater pride.

The speeches thus being inaugurated, the remainder of the evening was pleasantly spent and rapidly passed away; throughout the occasion was one of good feeling and genuine enjoyment—one which all felt would make the "Commemorative Supper" an event around which the most agreeable memories will linger.

BOARD OF HEALTH.

Regular Monthly Meeting—Health Officers Reports—Nuisances Abated—Condition of the City.

The Board of Health held a regular meeting Saturday afternoon.

Present—Messrs. Edwards, House, Fleming, Mays and McCandless.

Mr. House presided.

Minutes read and approved.

Attention having been called to a nuisance in the shape of a pond on the Gill property, Webster avenue, on motion of Mr. Edwards the Health Officer was instructed to abate the nuisance and institute suits for expenses.

Health Officer Gray reported 106 permits granted; amount received therefrom $212; amount received from Trustees of Methodist grave yard for removing dead animals $6.00; total receipts $218; expenses $43.75, leaving a balance of $174.25 in the treasury.

The death list for September numbered 445, and the births 499; 30 small-pox patients sent to hospital; 6 burials; 15 saloons closed on account of small-pox.

The quarterly report of Meat Inspector Lindsay was presented, showing that he had condemned during the quarter 480 dozens of eggs; 1,560 pounds of meat; 4 calves unfit for use; 19 head of sheep; 1 dressed veal.

During the quarter the arrivals at the East Liberty stock yards were: Cattle, 101,899; dead, 23. Hogs, 252,524; dead 711. Sheep, 252,905; dead, 533.

Reports received and filed.

The Health officer reported the closing of five saloons, on account of small-pox, since the preparation of his last report.

A bill from Mercy Hospital for $170 was presented and warrant ordered; Wm. McCallen's bill for removing small-pox patients and interments for $117, was also ordered to be paid; also bills of Weldin & Co., stationery &c. $48.78; Bakewell & Marthens, $37.75; and James Black for rent, $87.50; were presented and warrants ordered.

Warrants were ordered for the salaries of the officers.

Dr. McCandless moved that the President of the Board make application to Councils for an additional appropriation of $2,000. Carried.

Adjourned.

BURGETTSTOWN FAIR.

Pittsburghers, Attendance, Display, &c.

[For the Gazette.]

The Union Agricultural Association held its sixteenth annual exhibition on their fair grounds at Burgettstown, Washington county, Pa., on the 4th, 5th and 6th insts. The exhibition of horses, hogs and sheep was as good as and perhaps better than usual. The display of cattle, in both quantity and quality, was far superior to that of any former occasion. Among the special attractions in this class was a large steer weighing two thousand nine hundred pounds, owned by Robert Stewert, Sr., of Jefferson township, Washington county, Pa.

The display of machinery and agricultural implements was larger and more varied than usual. Among the exhibitors we noticed Mr. H. B. Long, agent for Samuel Hare & Son, also Mr. W. R. Johnston, of Spratt, Johnston & Co., both well known firms of Pittsburgh. The number of spring wagons and buggies entered for prizes was unusually large. Among the principal contestants were J. W. Dougherty, of Burgettstown, and a firm from the State of Ohio, whose name the writer did not learn. However all articles entered were highly creditable to the parties entering them.

The large and commodious Floral Hall, which was this season erected for the especial use of the lady exhibitors, was filled and overflowed with a thousand delicacies and numerous articles which are beautiful and lovely to all, but only fully appreciated by the fairer sex.

The exhibition throughout was one of the largest, most thorough and complete ever held by the Association. The weather being very propitious the attendance was unusually large. The Washington Cornet Band, of Pittsburgh, furnished excellent music for the occasion, for which they have the thanks of the vast audience present. SPECTATOR.

WONDERFUL WORK.

The Babcock Extinguisher.

The following we copy from the Chicago *Post*:

Office of Dewey & Stewart, Owasso Mills, Owasso, Michigan, September 26, 1871.

F. W. Farwell, Esq., Secretary:

Dear Sir: Yesterday morning, at 6 o'clock, a fire broke out in the upper part of a new dwelling in this city. It was a square roof with a cupola on top, and the fire was just under the roof, making it difficult to get at. When I reached the building with one of the extinguishers the flames had burst through the roof and through the cornice. They had got the windows all out, also the furniture. I said to friends, "It's too late." The men were leaving the building in despair of saving it. We got a ladder in place as near as we could, and I ascended to the upper rooms—which were one mass of flames—penetrating through the roofing. By the time I had used one-half the contents of the Babcock I had the fire under control, and by carefully using the remainder, while others knocked away partitions, etc., I put it entirely out, using only the one charge. Many of the skeptics who opposed the city's buying were there. They came right to me and said, "You saved the building, and now we know the merits of the Babcock Extinguisher." The Council immediately took steps to purchase, and you will get the order. This building was insured for $2,400, and the damage is at least $500. Several other houses would undoubtedly, have burned also if this had. The insurance agent acknowledged himself very grateful to me for saving his company from the total loss of the building.

Yours, T. D. Dewey.

Brownsville Fair.

Brownsville, October 6, 1871.

This is the fourth day of the "Brownsville Agricultural Exhibition," and it is a poor affair. The principal feature is the race course. There are a few horses, a few cows, a few sheep and lambs and a few pigs. In the fowl department there are a few chickens, ducks, turkeys and pigeons. There are a few specimens of wheat, corn, apples, potatoes and pumpkins; also a few grapes. There were several kinds of farming implements, a few stoves and grate fronts. The hall, though small, was well filled with various things, such as needle work, knitting machine work, sewing machines and specimens of work, two pianos and a melodeon. There was a one-horse show, and several chance game and gambling institutions. There were many people in attendance and much complaining of disappointment. I think, better no fair than such an af-fair. C.

Titusville Oil Market.

Titusville, October 7.—The *Courier* reports the petroleum market as follows: Sales on Upper Road: 1,000 bbls spot $4.62½; do 1,000 do do $4.65; do 500 do do $4.65; do 500 do Church Run spot $4.72½; do 500 do do do $4.72½; do 400 do do $4.72½; do 300 do do do $4.75; do 500 do do do $4.75; do 500 do do do $4.77½. Petroleum Centre: 500 do 47 gravity do $4.82½; do 500 do do do $4.85. Rouseville: 1,000 do mercantile do $4.80. Lower Road: 1,000 do do $4.82½; do 1,000 do gravity do $4.90. Oil City: 100 do 47 gravity do $5; do 1,000 do do $5.05. To-day, as is usually the case at the close of the week, was a very quiet one. We quote no change in prices. The scarcity of oil sustains prices, in view of the fact that refiners cannot operate except at a loss with the present market for refined.

CRIMINAL NEGLIGENCE.

A Switch Left Open Throws a Train from the Track—Man Killed.

Between two and three o'clock on Saturday morning, a terrible accident occurred on the Connellsville Railroad, at Frankstown, four miles from the Monongahela station. A portion of the new second track is used between this point and Hazlewood and is here connected with the single track by a switch. A man named Martin Feeley has been employed as switchman at this point, and on this occasion was so far regardless of his duty as to leave the switch open, so that the rails upon which trains from the East came, were cut off entirely. At the time mentioned, a freight train coming to the city on this track was thrown off, the engine plowing into the earth. The engine was a very heavy one and moving at a slow rate, was very quickly stopped and was not much damaged; the first two cars, however, were completely demolished and a brakeman named Charles O'Neil, who had been stationed on the front car, was buried under the *debris* of the wrecked cars. It was not until after daylight that the unfortunate man was found and extricated. His head was buried in the mud and he was entirely dead. Deceased came from Parkersburg, West Virginia, and was unmarried. He had been only fourteen days in the employ of the road.

Through the energy and exertions of President Hughart, the other track was extended around the wreck and but few of the trains were delayed, and those only for a few minutes.

It was rumored during the day that the watchman, through whose negligence the accident had occurred, had fled. The report, however, was unfounded. Feeley states that he intends to remain and "face the music." We have not learned, however, that he has offered any explanation of the affair, or that there are any extenuating circumstances connected with it.

Coroner West was notified of the affair and perhaps held an inquest. We do not know, and are not certain that he does.

A Machine That Can Talk, Laugh and Sing.

A persevering Frenchman once constructed a machine, in the form of a duck, which could walk, clap its wings, pick up grains of corn, and, more wonderful still, digest them, but a machine capable of talking was supposed to be beyond the power of human ingenuity to construct. Kempelen, a German, made a number of puppets, that uttered the words "papa" and "mamma," but after devoting his life to perfecting them, he asserted that a machine which could utter all the words in use in European languages was an impossibility. After his death his puppets became dumb, no one understanding the mechanism by which they were made to speak. Kempelen's impossiblity has been at last overcome. In 1841 Prof. Faber exhibited a machine which could utter a great number of sounds and words, but it was by no means perfect. His nephew took up the machine that his uncle had failed in perfecting, and completed it. After exhibiting it before all the crowned heads and scientific societies in Europe, he has brought it to this country, and some time since gave an exhibition of it in private. The machine, which stands on a small table, consists of a complicated arrangement of rubber tubes, reeds, keys, pedals, strings and wires. The lungs are represented by a small pair of bellows, the glottis by reeds and pipes of different sizes, the lips and tongue by pieces of india-rubber. Beneath the table is a pedal by which the bellows are worked, and on the right hand side a series of keys, on which are marked the letters O, U, I, E, L, R, W, F, S, B, D and G. With these and some supplementary arrangements, all sounds used in the European languages can be enunciated. There is also an arrangement resembling the key-board of a piano, by which the machine can be made to sing. Every portion of it is open to view, so that no deception is possible. Yesterday the machine, under the deft hands of Mme. Faber, enunciated distinctly all the letters of the English and German alphabets, numerous long and difficult words, such as "Constantinople," "Politzka," "Mississippi," "Radetzky," "hurrah," and then darted off into long sentences in English, German and French, winding up with a laugh of the most natural kind, followed by hisses, groans and murmers. Every word proposed was pronounced at once and without the slightest hesitation. Of course some words were more clearly enunciated than others, but the majority were given far more clearly than the majority of human beings pronounce them, and even the nasal twang which French people often adopt was closely imitated. In Prof. Faber's machine the motions of the mouth and tongue imitate precisely those of human beings. Different keys or tones can be given by proper manipulation of the pedals. Taken altogether, the "talking machine" is a wonderful specimen of man's ingenuity. Whether it can ever be anything more is doubtful. It cannot be applied to any practical purpose, unless, indeed, dumb or weak-nerved and feeble-voiced individuals should choose to purchase them and use them as medicums through which to address the public.

Prof. Faber, we believe, intends to exhibit his machine in public as soon as arrangements can be made for that purpose. The singing portion of the machine not being in order yesterday, we were unable to determine what merit the invention possesses as a vocalist.—*N. Y. Times.*

A Professional Murderer.

A Moscow paper gives an account of a murder perpetrated with a coolness and audacity which would do credit even to New York, and to such accomplished necine experts as the slayer of poor Mr. Nathan. The victim was a Mr. Kosakevitch, a homoeopathic practitioner of St Petersburg:

That gentleman was walking in the Elizabeth gallery, built by Prince Worontzow on a hill near the grotto of Lormontesae, when he preceived a young man taking sketches, and entered into conversation with him. The artist said he was a pupil of the Academy of St. Petersburg, and had been sent by the government to make drawings. In the course of his talk he spoke of a certain mineral source which existed in the neighborhood, and as Mr. Kosakevitch questioned the fact, an agreement was made between them to visit the spot. Accordingly they started together one afternoon, and three days passed over without anything being heard of them, when Col. Kosakevitch, brother of the physician, being then at Platigorsk, became uneasy and went to inform the police. Two days more were spent in fruitless researches; but at last a soldier discovered a corpse, frightfully mutilated, and bearing marks of gunshots, which was identified as that of the medical man. On the day of his departure he was known to have had on his person a receipt for a sum of 13,000 francs, deposited by him in a bank of St. Petersburg, and that paper, as also his watch, had disappeared. An inquiry set on foot relative to the artist showed that he was a native of Kiew, aged 24; that he had obtained a passport from the police of Platigorsk, and had been to the watering-place of Jelesnovodsk, where his occupation was to watch strangers and decoy them into the mountains; but that, after some unsuccessful attempts at robbery, he had returned to Platigorsk. On the evening of the murder he had purchased a Greek costume and departed for Petrotovskoe, near Stravropol, but all track of his movements was there lost.

His choice of a Greek costume suggests his departure for the classic land, where he will no doubt prove a valuable acquisition to the flourishing brigand interest, and have many chances of "keeping his hand in."

The Humors of the British Campaign.

[London Correspondence of the N. Y. Times.]

Of course there are plenty of stories in circulation through the various camps. At Hartford Flats, the Prince of Wales took it into his head to go round the lines one night with an aide-de-camp. As he passed one of the militia sentries, who was slouching about with his gun under his arm, the fellow made no salute but just stared at him. "Don't they teach you to salute a general officer?" asked the Prince. "Well," said the militia man very coolly, "now you mention it I think they do. But you came round the corner in such a deuced hurry, I hadn't time to do it, and it isn't worth while now." Another militia man who was on sentry duty challenged some one who was passing through the camp, declaring that the sergeant had told him that he must not allow anybody to pass who did not say "Newcastle." "That's the word, you know," he added, innocently, and the intruder, thus provided with the pass, of course, mentioned the name and went on. Perhaps the best story, however, is one which the Prussians have brought over. An old General in their service the other day addressed a regiment as follows: "Now, my men, we have got over the war, there is no more fun for us, and we must settle down to serious drill." Among the practical jokes of the campaign has been the capturing of prisoners on both sides. The hussars have several times been down on the "heavies," and the temper of the Life Guards, still sore about the stampede of their horses, has been further ruffled by a number of troopers and an officer having been carried off prisoners by the enemy. A militia regiment has also been surrounded by the foe, greatly to its amazement and disgust. The Colonel is reported to have said that he did'nt think this gentlemanly conduct on the part of the enemy, and that they should have given warning, when he would have put his men in a position to repel attack.

It is stated that there is hardly a man in Corsica who would not gladly give his last drop of blood for the advancement of any person bearing the name of Bonaparte. The Corsicans still reverence the name of the first Napoleon, whom they speak of as "our God-like fellow countryman, and the greatest of all Corsican heroes."

EPISCOPAL CONVENTION.

Ritual Uniformity.

REPORT OF COMMITTEE.

Baltimore, October 7.—At the opening of the Episcopal Convention to-day resolutions of respect to the memory of Hon. John N. Cunningham were passed, and appropriate eulogies delivered. Mr. Moss, of Ohio, referred to like tributes paid to the late Rev. Christopher P. Gladsden and Herman Cope. Numerous eulogies were pronounced to the late Jackson Kempe. Tributes were also paid to Milo Mahan, Solon W. Murray and Wm. M. Taylor. A message was received from the House of Bishops transmitting the following report on uniformity of ritual:

The committee of five bishops appointed by the House of Bishops at the General Convention in 1868, to consider whether any additional provision for uniformity, by canon or otherwise, is practicable and expedient, and to report to the next General Convention, having held sundry meetings at several different places, at each of which all the members of the committee were present through the entire session, and having, as they believe, given to the subject matter entrusted to them that careful consideration which its importance merits, respectfully ask leave to report. The resolution under which the committee was appointed raises several questions for examination and answer. Is any legislation, touching the performance of Divine service and the administration of sacraments, and other rules and ceremonies of the church, practicable? If practicable, is it at this time expedient? If practicable and expedient, shall it take the shape of a canon or canons, or shall it be otherwise provided for, and what shall the action of the details of legislation be? Assuredly these are questions which touch the Church and its members in many and very vital points, and involve many delicate as well as precious relations in considering these questions. The committee have endeavored never to forget that substantial uniformity is entirely compatible with very considerable individual liberty; that non-essentials should never be unduly magnified, and far less raised to equality with essentials; that many troublesome and objectionable things are ephemeral in their nature and perish in using, and that under any circumstances hasty legislation is ever to be avoided. Nor have they omitted to keep in mind the wise words of the 46th Article of Religion. It is not necessary that traditions and ceremonies be in all places one or utterly alike, for at all time they have been diverse, and may be changed according to the diversity of countries, times and men's manners, so that nothing be ordained against God's word. Every particular or national Church hath authority to ordain, change and abolish ceremonies or rites of the Church ordained only by man's authority, so that all things be done to edifying. While, however, the committee have kept these considerations in view, it has been and is their unanimous opinion that some action of the General Convention in regard to the important matters named in the resolution appointing them is very desirable, if not, indeed, absolutely demanded. Among the many reasons for this conviction that present themselves, they venture to ask attention to the following:

First—It is obvious to remark that there are among us great and growing diversities of use in the performance Divine service by the officers of the church. Unless something is done, and done soon, the interests of the uniformity of these diversities bid fair to equal if they do not exceed those which at the period of the Angelican reformation were regarded as an evil to be removed, and which led to the decision that the whole realm should have but one use. They occasion, moreover, even now confusion, trouble and perplexity among our people, and their evils must increase as their causes are multiplied.

Secondly—It is believed that the various services over and above those provided in the book of common prayer, or set forth in accordance with the provisions of Little 1, canon 13—14, of the Digest, and not coming under the denomination of Sunday or other school services, are publicly used in certain churches. How far liberty in this regard is to be allowed, or in what respects it is to be restrained, the committee do not undertake to say. It is obvious, however, that any such services are sources of disorder and confusion in proportion as they are framed on principles, and embody acts, words and forms, come these from what outside quarter they may, that are not in accordance with the doctrine, discipline or worship of our own church, or are foreign to the genius and spirit of our services.

Thirdly—The Committee have reason to believe that in some instances the services in the prayer book are unlawfully altered or mutilated, and in others are so performed as to make it difficult, to say the least, to distinguish them, except in the language employed, from those of the Church of Rome. Against such wrongs our people have a right to demand protection, and whether they demand it or not, it would seem to be a plain and bounden duty to provide for it. For these reasons, besides others which it is not necessary te rehearse, the committee unanimously recommend action by the present General Convention, and after maturely weighing the different modes in which this recommendation may be carried out, they further unanimously recommend that any action which the convention may take shall be in the form of a canon or canons. In proceeding to state the various details which they believe ought to be made subjects of such action as has been proposed, the committee desire to say that while on the great majority of points presented there has been entire unanimity of opinion. Some things are, nevertheless, proposed, and others omitted, which, had each member's individual wish been regarded, the final result would have been differently disposed of. They have strongly felt that unanimity necessarily envolves the giving up of some things and the acceptance of others, which individuals may desire on the one hand to retain or on the other to remove.

The committee report the following as matters on which they respectfully recommend legislation: They recommend that certain acts in the administration of the holy communion and on other occasions of public worship hereinafter enumerated, be prohibited by canon, viz.: First, the use of incense; second, placing or retaining the crucifix in any part of the church; third, carrying a cross in procession in the church; fourth, use lights on or about the holy table except when necessary; fifth, the elevation of elements in the holy communion in such a manner as to expose them to the view of the people as objects toward which adoration is to be made, or in after prayer, consecration or on administering them, or conveying them to and from communicant; sixth, mixing water with wine as part of the service, or in the presence of the congregation; seventh, the washing of priests' hands or ablution of the vessels in the presence of the congregation; eighth, bowing, crossing, genuflections, prostrations, reverences, bowing down upon or kissing the holy table, or kneeling, except as allowed and provided for, or directed by the rubric or canon, it being provided that reverence at the mention of the name of the Lord Jesus is not intended to be allowed, and it being further provided that private personal devotion before or after official ministration is not to be understood to include or justify any of the acts prohibited; ninth, celebration on receiving the holy communion by any Bishop or priest when no person receives it with him; tenth, employing or permitting any person or persons not in holy orders to assist the minister in any part of the order for the administration of the holy communion; eleventh, using at any administration of the holy communion any prayers, collects, gospels or epistles other than those provided in the Book of Common Prayer, or under XIV of Canon, 13 of Title, 1 of Digest.

They further recommend here: First, that no rector of a parish or other minister be allowed to introduce choral service without the consenting vote of the vestry, or contrary to the prohibition of the Bishop; second, that no surpliced choir shall be employed except under the same limitations, and when such choirs are employed, the only addition to their ordinary attire shall be a surplice reaching to their ankles; third, that no church shall be allowed to be so arranged as to prevent the minister from officiating at the right end of the Holy table. It is to be noted that a credence table is lawful. The Committee further recommend that canonical provision be made touching the dress appropriate to the clergymen ministering in the congregation, and the only vestments declared to be appropriate to clergymen so ministering be, first, for the Bishops present, Episcopal robes; second, for all ministers a white surplice, a black or white stole, black cassock not reaching below the ankles, black gown and bands. They also recommend that provision be made—first, that on occasions of services where expediency or the necessity of health may require it, the University cap may be used; second, that candidates for orders who are licensed to act as lay-readers may use the academical black gown; third, in addition to the canonical provisions now recommended, and in consideration of the fact that nothing can be so plainly set forth but doubts may arise in the use and practice, the committee further unanimously recommend that some action be taken to carry out, in such a manner as may secure its observance, the principles declared in the second resolution sent to this House by the House of Clerical and Lay Deputies, at the General Convention, 1868, to wit: that in all matters doubtful, reference shall be made to the Ordinary, and no charges shall be made against the godly counsel and judgment of the bishop.

In conclusion, the Committee recommend the adoption of the following resolutions:

Resolved, That this report be communicated to the House of Clerical and Lay Deputies.

Resolved, That, the House of Clerical and Lay Deputies concurring, a joint committee consisting of three Bishops, three presbyters and three laymen be appointed, to whom shall be referred, with directions to report to this Convention at as early a day as practicable, such canons as they may deem necessary in the premises.

All of which is respectfully submitted.

[Signed] Alfred Lee,
J. Williams,
T. M. Clark,
W. H. Odenheimer,
J. B. Kerfoot.

Accompanying the foregoing report are the following resolutions from the House of Bishops:

Resolved, That in the gravity of the subject and its bearings, this House is unprepared for immediate action on the report submitted by the Committee on Ritual Uniformity, without previous consideration of the same, in Joint Committee of the two Houses of the Convention.

Resolved, The Houses of Clerical and Lay Deputies concurring, that a joint committee be appointed for the consideration of the above named report of the Committee of the House of Bishops, concerning the ritual, and to report, if any, and if any, what action may properly be taken in the premises.

Action on the message and report from the House of Bishops was postponed by the House of Deputies until Tuesday next.

The report from the Committee on Canons against reducing the number of deputies in the House was concurred in.

A memorial by Mr. Rogers, of Texas, for the appointment of a missionary Bishop for a portion of the diocese of Texas was referred to the Committee on Canons.

The Convention then adjourned till Monday at ten o'clock.

BRIEF TELEGRAMS.

—The Industrial Exhibition at Cincinnati closed on Saturday night.

—A meeting was held at Hartford, Conn., last Friday evening, in celebration of the Treaty of Washington.

—Hon. G. M. Robeson, Secretary of the Navy, delivered an address at Cleveland, Ohio, on Saturday night. He spoke over two hours, and was greeted with tremendous applause.

—The canvass in Mason county, Kentucky, for the four hundred thousand dollars subscription to the capital stock of the Kentucky and Great Eastern Railroad closed on Friday night.

—North Carolina intelligence states that on Thursday a warrant was issued for the arrest of United States Marshal Carrow and his deputy for the illegal arrest and imprisonment of eight citizens.

—Several hundred Cherokee Indians from North Carolina passed over the Memphis and Charleston railroad on Friday, going *via* Corinth, Tennessee, to St. Louis, to join their brethren in the nation.

—The Boatmen's Association for the Protection of River Interests, at Cincinnati, on Friday, elected the following Board of Directors: Samuel J. Hale, Vincent Shinkle, J. G. Isham, John Kyle, Robert Semple, H. A. Jones, J. D. Parker, C. Pearce and John C. Reno.

—Passenger train No. 7 on the Pittsburgh, Cincinnati & St. Louis Railroad, Western Division, from Chicago, met with an accident at 3:30 yesterday morning, about thirty-four miles west of Columbus, Ohio. The engine ran into two horses and was thrown from the track, together with the baggage car and two passenger cars. The engineer, John Mull, and the fireman, Wm. Wall, were badly, and probably fatally, injured. The passengers escaped without injury.

The Italian landlords must be congratulated for having discovered a new mode to extort money from their victims. It was a stroke of genius on the part of hotel proprietors to charge a franc a day to their guests for service. The Italians not only charge this franc, but they also charge a franc for carrying the luggage up stairs, and another franc for carrying it down. They also place in the bed-rooms small soup-plates, which do duty as washing-basins, and then exact half a franc for a few pints of extra water, which they call a foot bath.

ON THE PREMISES.

TO BOILER MAKERS AND MACHINISTS.—Those desiring to enter into the business of manufacturing Boilers, Tanks, &c., in all its branches, have a good opportunity afforded them in the following, viz: The leasehold of a lot of ground, situate on the line of the Allegheny Valley R. R., between 32d and 33d streets, Fifteenth ward, Pittsburgh, lot 96 feet front by 120 feet deep; lease having fifteen years to run, from April 1st, 1871, at an annual rent of $180, on which lot is erected an iron-clad building, having a front of 72 feet by 30 feet in depth, containing boiler, steam engine, shears punching machines, shafting, rolls, furnaces, trucks and all the fixtures, tools and implements necessary for and used in a boiler yard and sheet iron works, and sufficient for the working of thirty hands. These works have a LARGE ESTABLISHED CUSTOM, which is worth more than the price asked for the entire works and leasehold. This property can be purchased for less than the lease of the naked lot alone is worth. Every facility for shipping is afforded. Here is an opportunity seldom offered.

Monday, October 9, 1871,
AT 1 O'CLOCK, P. M.
EXCURSION TICKETS furnished at Union Depot on day of Sale. Train leaves at 11:35 A. M.
THE
Improvement Trust Co.
OF PITTSBURGH,
Offer this, their first Plan of Lots, for sale on the following terms: Ten per cent. Cash—balance monthly, in payments of FIVE DOLLARS per Lot, WITHOUT INTEREST. A Policy of Life Insurance will be issued, WITHOUT EXTRA COST, to the purchaser in health, conditioned that should he die previous to the payment of any instalment, the balance of the indebtedness to the Company will be canceled.
HOUSES will be erected on the Lots, for those desiring it, on equally easy terms. Plans and specifications of several styles of buildings may be seen at the Company's office.
Don't Pay High Rents
For diminutive, dark, and dingy tenements, amongst the smoke and soot of manufactories, when EVEN LESS MONEY will secure you a home of YOUR OWN, unincumbered by the exactions of Landlords, and the necessities of frequent removals.
This Property adjoins the Railroad Station, and is but 25 minutes ride from Union Depot.
All Trains, including Expresses, stop at Mansfield.
The Railroad has been improved by the New Management in all respects, double track being laid, and Trains run regularly at suitable intervals.
The Chartiers Valley being the first level country of any extent on the line of the Railroad beyond the City, and this point being the intersection of the Chartiers Valley Railroad, it is understood that shops are to be built here for the use of the Railroad Company.
The construction of the Tripartite Bridge is *now a certainty*, which, connecting this section with the business centres of the cities, will afford a safe and accessible Driving Road.
There is every indication of a rapid increase in the value of Real Estate in this Locality.

PROPOSALS.

PROPOSALS FOR
Iron-Frame Barrack Bunks.

QUARTERMASTER GENERAL'S OFFICE, WASHINGTON, D. C., Sept. 8, 1871.

SEALED PROPOSALS in duplicate, with copy of this advertisement attached, will be received at this office until 12 o'clock, noon, the 20th day of October, 1871, for the manufacture of such number not exceeding 12,000 of iron-frame, single barrack bunks, as may be required for the use of the U. S. army during the present fiscal year, in accordance with the two patterns adopted by the War Department.

Plans and specifications of the adopted patterns may be seen at this office, and at the offices of the Depot Quartermasters at New York, Philadelphia, Boston, Louisville, St. Louis, Chicago and Pittsburgh.

Proposals will state distinctly at what point the bunks will be delivered to the officers of the Quartermaster's Department for transportation; the price per bunk complete, as also for iron-work complete, but without the wooden slats.

The right is reserved to reject all bids offered, as also to contract for such number of each or either pattern as may be deemed advisable by the Quartermaster General.

Each bid must be accompanied by a guarantee of at least two responsible persons that in case the bid is accepted, and a contract entered into, they will become sureties, in a sum equal to one-fourth of the amount of the contract, for its faithful fulfillment.

Proposals to be endorsed "Proposals for Iron-frame Bunks," and addressed to the Quartermaster General of the Army, Washington, D. C.

M. C. MEIGS,
Quartermaster Gen'l, Bvt. Maj. Gen'l. U. S. A.

A print showing the pattern may be seen at the office of the GAZETTE.
